STATE OF TENNESSEE TREASURER'S REPORT

For the Fiscal Year Ended June 30, 2015

David H. Lillard, Jr.,
State Treasurer

Tennessee Department of Treasury

TABLE OF CONTENTS

TABLE OF CONTENTS

INTRODUCTORY

David H. Lillard, Jr.
State Treasurer

The State Treasurer is a constitutional officer elected every two years in a joint session of the Tennessee General Assembly. The Treasurer is charged with various responsibilities, most relating to the financial operations of state government, including managing over $56 billion in assets through its various investment programs. The Tennessee Treasury Department is responsible for receiving, investing and disbursing public funds, and managing all state investments, including the pension fund. The Treasurer is a member of more than 30 Boards and Commissions.

The Treasury Department directs multiple state programs with a staff of approximately 260 employees, and a department budget of approximately $35 million.

Treasury Divisions include:

- Financial Empowerment
- Program Services
- Investments
- Legal, Compliance and Internal Audit
- Support Services

Treasury operates services to the state, and programs for Financial Empowerment. These programs are supported by the work of Treasury Investments, Treasury Legal, Compliance, and Internal Audit, and Support Services. Treasury staff includes many highly-skilled employees with professional certifications in their fields, including Certified Public Accountants (CPA), Chartered Financial Analysts (CFA), Chartered Alternative Investment Analysts (CAIA), Certified Treasury Professionals (CTP), Certified Financial Planners (CFP), Certified Fraud Examiners (CFE), and Certified Employee Benefit Specialists (CEBS).

Tennessee
Department of Treasury

Vision Statement

To be faithful stewards of the state's financial and human resources. To be passionate about achieving our mission and living by our core values.

Mission Statement

We will be a leader by providing exceptional service to our customers honestly, efficiently, and effectively.

Treasury Team Commitment

In order for us to provide exceptional service, both management and employees will foster an environment that respects, challenges, motivates, and rewards each team member. Each of us has a responsibility to develop and maintain this environment so that, together, we can achieve our mission and live by our core values.

Department Core Values

Impeccable Honesty: We will develop relationships and interact with one another and with our customers in a manner that fosters and encourages trust. We will maintain the highest ethical and professional standards in everything that we do.

Mutual Respect: We will treat everyone equitably and with honor. We will communicate in a manner that promotes open dialogue with our customers, within the department, and with our peers in state government.

Continuous Improvement: We will continually challenge ourselves to improve the level of service that we provide by being innovative, collaborative, creative, and efficient. We will work to be the best at what we do.

Shared Accountability: We will work as a team and will purposely strive to leverage the strengths and overcome the weaknesses of each team member. We will accept responsibility individually and collectively for the service that we provide to our customers.

Exceptional Service: We will be innovative in how we provide services to our customers and in how we do our work. We will be relentless in our pursuit of quality and excellence in everything that we do. We will focus not only on solving customers' problems, but also anticipating their needs.

Exemplary Leadership: We will be visionary leaders and positive role models for our peers. We strive to be highly respected both inside and outside state government.

*Treasurer David H. Lillard, Jr., Chair

Financial Empowerment Division
Joy Harris, Assistant Treasurer
Ashley Humphrey, Senior Director

The Treasury Department has a number of customer-focused programs that educate and support the financial lives of Tennesseans. To synergize Treasury's efforts to engage members of the state's retirement plans, political subdivisions and citizens of Tennessee, and empower them to improve their financial well-being, Treasury formed the Financial Empowerment Division in August of 2015.

The Financial Empowerment Division was created through a reorganization of existing resources. The programs in the Financial Empowerment Division include:

- ABLE TN
- Treasury Outreach Program
- Retire Ready Tennessee
  - Deferred Compensation
  - Optional Retirement Plan
- Tennessee Financial Literacy Commission
- College Savings Program
  - TNStars® College Savings 529 Program
  - Baccalaureate Education System Trust Prepaid Tuition Plan (BEST)
  - Tennessee Investments Preparing Scholars (TIPS)
- Chairs of Excellence Trust
- Certified Public Administrators Program
- Small and Minority-Owned Business Program

Tennessee Department of Treasury

ABLE TN
Roy West, Manager
ABLETN.gov

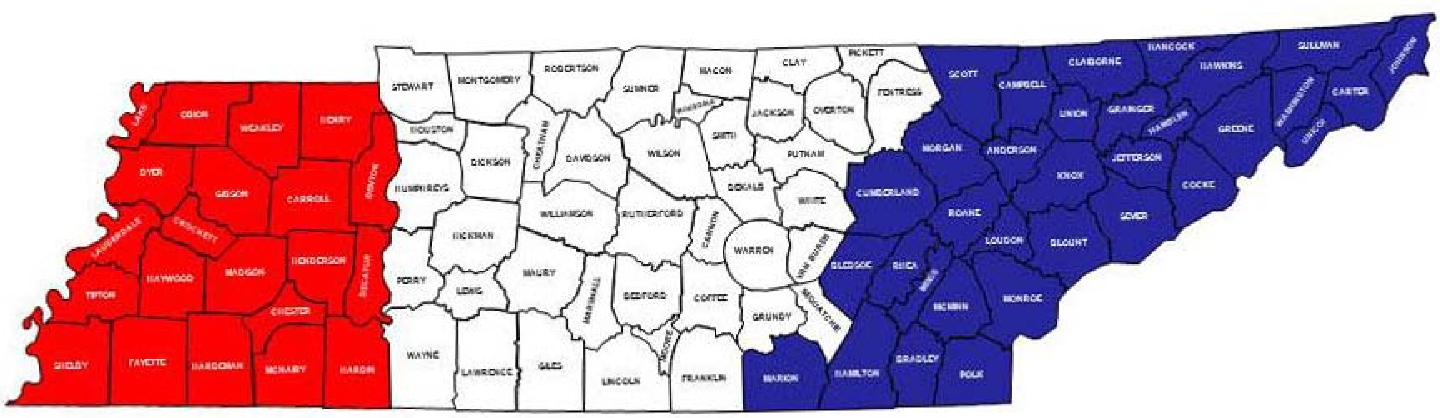
One of the major highlights from 2015 was the successful passage of the Tennessee Achieving a Better Life Experience Act (ABLE TN) legislation. ABLE TN will permit individuals with disabilities and their families to save and invest private funds to pay for a variety qualified expenses related to their disability. ABLE TN accounts are tax-advantaged, low cost investment accounts administered by the Tennessee Department of Treasury in accordance with federal law and regulations. Families and individuals are expected to begin taking advantage of this program in the summer of 2016.

Treasury Outreach
Drew Freeman, Director
treasury.tn.gov/outreach

The Treasury Outreach division was created in 2014 to increase and improve communication with local governments, employers, and retirement participants. Treasury has an Outreach representative in every region of the state. These three representatives forge relationships with individuals and organizations in county and local governments throughout the state.

Our three Outreach staff members who represent the Tennessee Treasury Department throughout the state are:

- Drew Freeman, East Tennessee
- Josh Thomas, Middle Tennessee
- Tim Joyce, West Tennessee



Treasury's Outreach division educates employers participating in our retirement plans on the options available that will best allow their employees to maximize the retirement benefits offered to them. The division also works with counties and local governments not yet participating in our retirement plan to provide them information about joining.

Retire Ready Tennessee

RetireReadyTN.gov

Retire Ready Tennessee is Tennessee's retirement program, consisting of the Tennessee Consolidated Retirement System, the state's deferred compensation 401k and 457b plans, and retirement readiness education. The state retirement plan covers state employees, higher education employees, K-12 public school teachers, and almost 500 local governments. Retire Ready Tennessee places significant emphasis on a comprehensive approach to planning and saving for retirement. TCA 8-36-9 created the new hybrid retirement plan, which went into effect July 1, 2014. Treasury representatives are now authorized to offer participant financial education and counseling to help members make appropriate financial choices through all stages of their career in order to encourage financial readiness at retirement. Retire Ready Tennessee will also provide educational materials and tools for public use to encourage all Tennesseans to learn to make wise decisions in planning for retirement.

Deferred Compensation Program
Kaci Lantz, Director

treasury.tn.gov/dc

Tennessee's Deferred Compensation 401k and 457b plans are administered by Empower Retirement. The deferred compensation program provides employees the opportunity to take an active role in planning for their retirement through self-selected investment options. Employees can choose from an array of high quality investment options including target date funds which automatically shift from an aggressive to conservative allocation as the participant get closer to his/her retirement date. In FY 2015, the Treasury Managed Fund was created, allowing employees an opportunity to invest their deferred compensation account funds in a group trust invested along with the assets of the Tennessee Consolidated Retirement System.

As of June 30, 2015, accounts were held by 77,390 individuals in the 401(k) plan and 6,450 individuals in the 457 plan. At fiscal year end, 30,073 state employees, 9,635 University of Tennessee employees, 11,218 Tennessee Board of Regents and 581 Local Government employees were actively contributing to the 401(k) plan and 2,391 state employees, 774 University of Tennessee employees, 447 Tennessee Board of Regents and 85 Local Government employees were actively contributing to the 457 plan.

For the year ending June 30, 2015, contributions to the program totaled $146.4 million. Contributions are wired for immediate crediting. At June 30, 2015, accumulated account balances totaled $2.3 billion.

Deferred Compensation Contributions and Market Value
Fiscal Year 2015

	Contributions FY 2014-2015	Market Value June 30, 2015

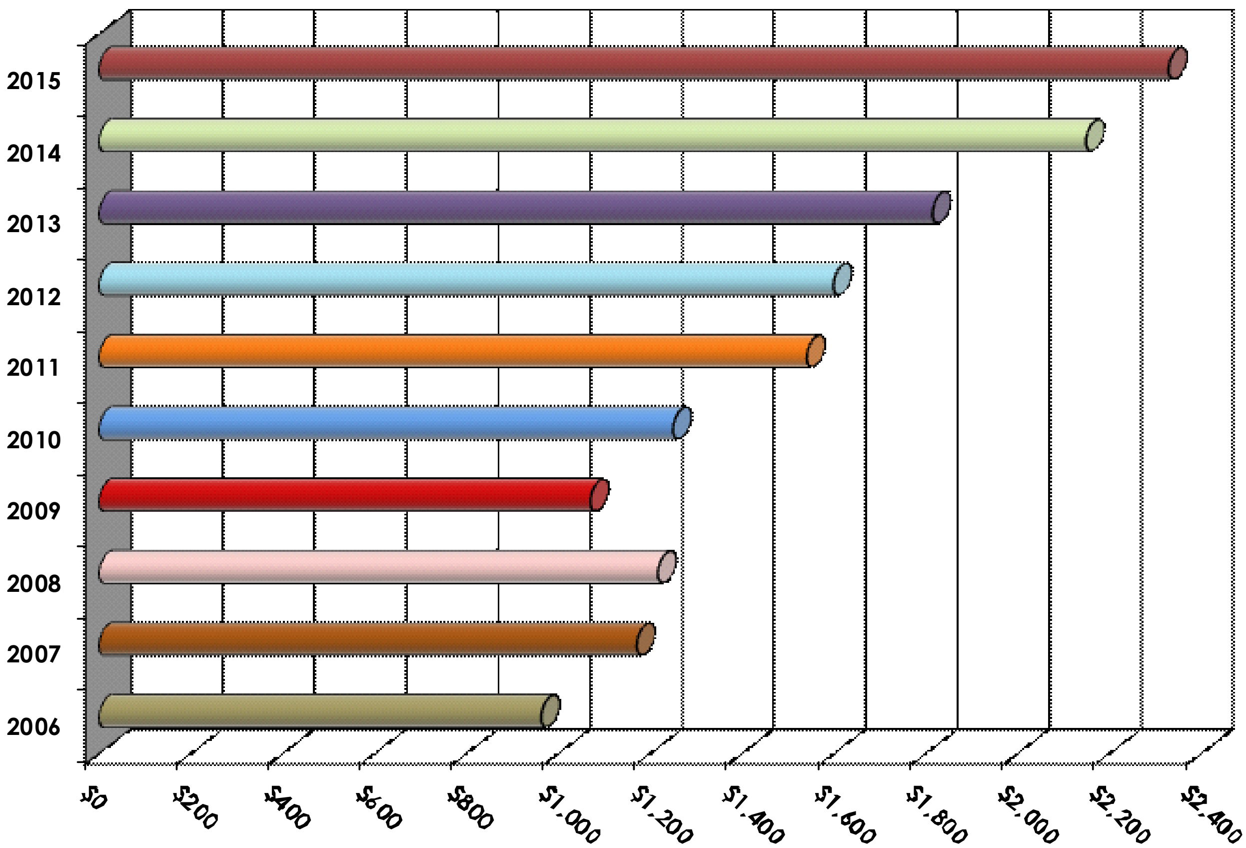
Deferred Compensation Program Assets
Expressed in Millions
Fiscal Years 2006-2015



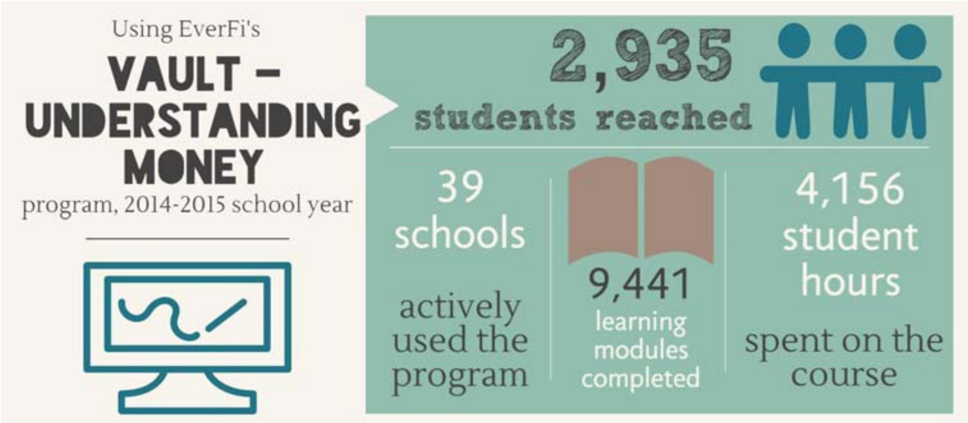
Optional Retirement Plan
Kaci Lantz, Director
treasury.tn.gov/orp

The Optional Retirement Plan is a defined contribution plan. Investments are participant-directed and selected from options offered through the plan service providers using bundled contracts. ORP plan investment management and administrative services are offered by third-party administrators. Contributions to ORP for the year ended June 30, 2015 were $100 million and ORP assets were $3.30 billion. There were 11,588 ORP participants at June 30, 2015.

Tennessee Financial Literacy Commission
James Armistead, Manager

TNFLC.org

The Tennessee Financial Literacy Commission (TNFLC) was formed in 2010 with the mission to equip Tennesseans to make sound financial decisions when it comes to planning, saving and investing. To fulfil its mission, the TNFLC trains elementary and middle school teachers throughout the state to incorporate *Financial Fitness for Life*® curriculum into their classrooms. Trainings are held in the form of one-day summits and in-service trainings that any school system in the state can request. All trainings are free of charge, and teachers who attend receive a free set of curriculum. Since 2012, the TNFLC has given 3,075 teachers the resources, knowledge and confidence to explore vital financial literacy concepts with their students. To supplement the curriculum, the TNFLC also provides Tennessee teachers with access to Vault – Understanding Money, an online, interactive tool developed by Everfi which allows students to independently progress through fun and engaging modules.



The TNFLC is a 501 (c) (3) non-profit organization that is administratively attached to the Tennessee Department of Treasury. The majority of the TNFLC's funding comes from donations from the business community throughout the state as well as private individuals. Per statute, the TNFLC releases an annual report to the general assembly each year in February.

We encourage you to view the "*Tennessee Financial Literacy Commission 2016 Progress Report*" for more detailed information relating to the work being accomplished by the TNFLC.

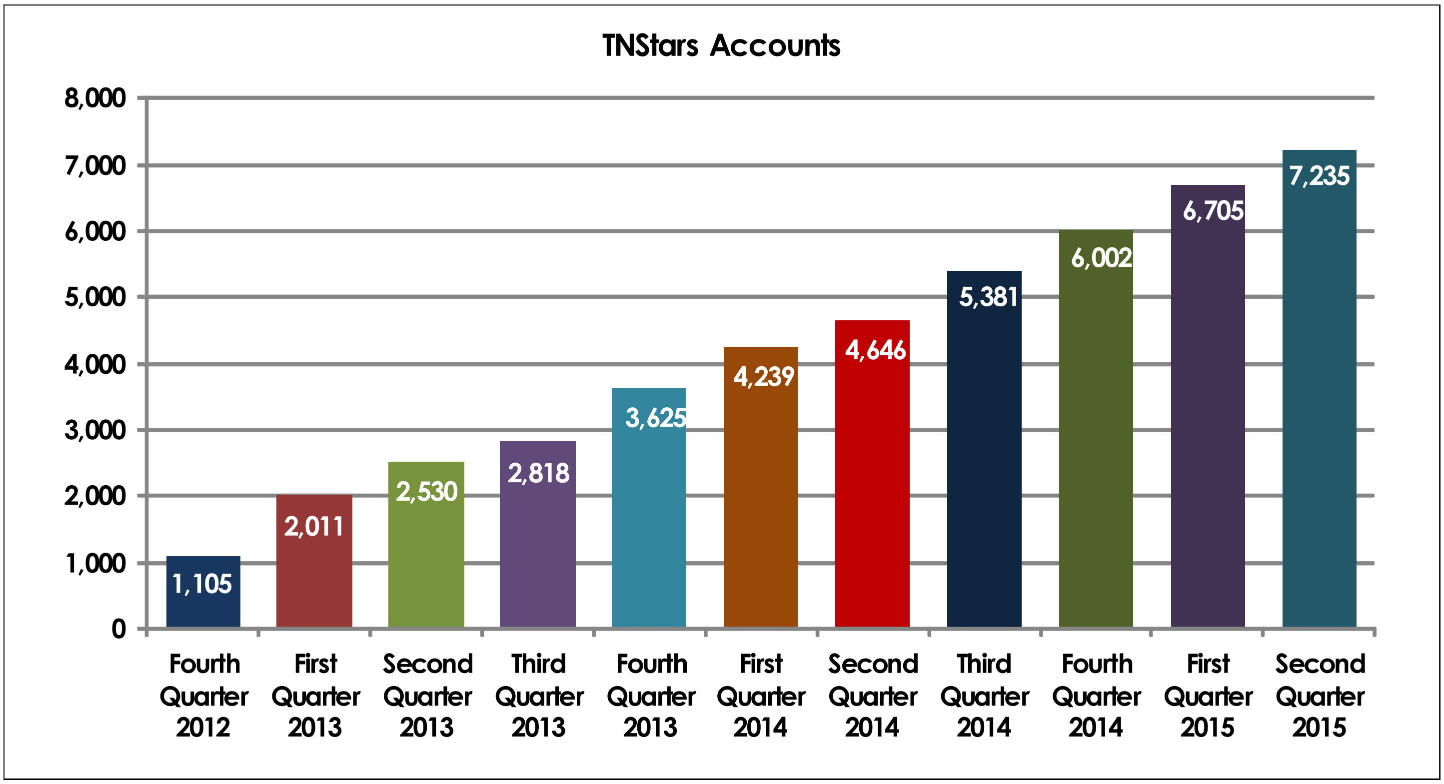
College Savings Program
LaKesha Page, Director

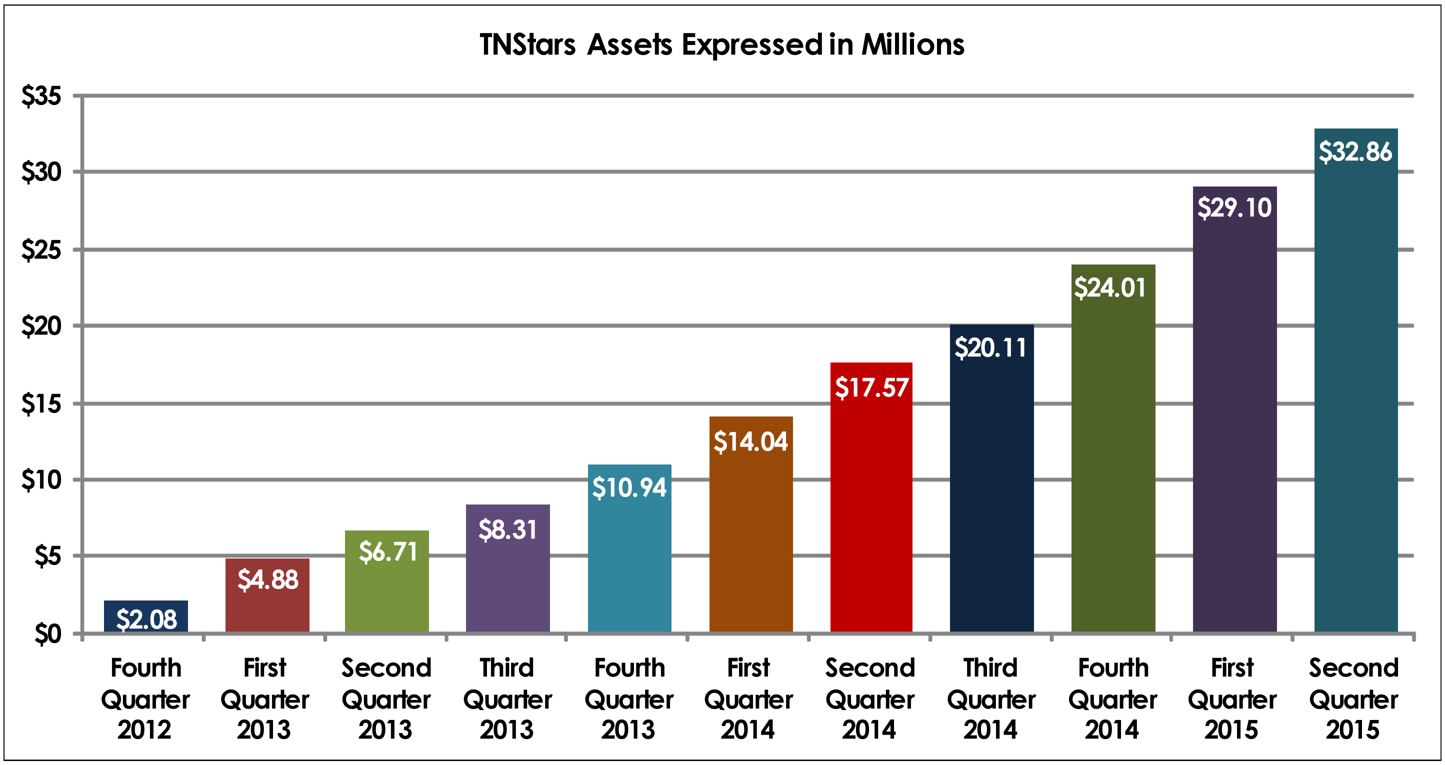
TNStars® College Savings 529 Program

tnstars.com

Treasurer Lillard understands that higher education plays a critical role in the need for a highly-skilled workforce in today's economy. In order to help more Tennesseans achieve the level of education necessary for a successful career, the Tennessee Treasury Department launched the TNStars® College Savings 529 Program. TNStars® has quickly become one of the highest-ranked programs in the country for investment performance by SavingForCollege.com. TNStars® offers families and friends a simple, tax-advantaged, low cost way to save and invest for future college expenses.

Financial Statements for the TNStars College Savings 529 Program can be found on pages 162-166.





Baccalaureate Education System Trust Prepaid Tuition Plan

treasury.tn.gov/best

The Baccalaureate Education System Trust (BEST) Prepaid Tuition Plan was enacted in 1995 and implemented in 1997. The BEST prepaid tuition plan allowed families to purchase units valued at tuition rates at the time of purchase and paid out at future tuition rates. Due to the rising cost of tuition outpacing investment performance nationwide, many prepaid plans have taken action to close or suspend plans. In November 2010, the BEST Board of Trustees suspended the selling of units. In November 2015, the BEST Board of Trustees terminated the plan for individuals not eligible to remain in the plan under state law. The recommendation to terminate the plan was based on the assessment that the plan was financially unfeasible and not beneficial to the citizens of this State or to the State itself. Furthermore, Tennesseans now have the opportunity to take advantage of an excellent alternative for investing for higher education expenses through the TNStars College Savings 529 Program. Going forward, we will no longer report on this status of the plan, except to provide financial reports.

The Baccalaureate Education System Trust portfolio can be found on page 64, and Financial Statements can be found on pages 76-78.

Tennessee Investments Preparing Scholars (TIPS)

tnstars.com/tips

The TIPS matching grant program was created to offer incentives to Tennessee residents with household incomes up to 250% of the federal poverty guidelines to participate in the TNStars College Savings 529 Program. When a TNStars participant enrolls a beneficiary in the TIPS program, the state will contribute a 4:1 match based on contributions from the participant during the annual qualifying period. Beneficiaries are eligible to receive a maximum match of $500 per year for up to three years. State contributions are placed in an age-based investment options and withdrawals are restricted to post-secondary education expenses.

In its inaugural qualifying year ending June 30, 2015, the TIPS program helped Tennessee families to open new TNStars accounts for 163 children who received a TIPS matching grant program incentive. Families that participated during this initial nine-month qualifying period had an average household income of $33,196.14 per year. During the qualifying period, these families contributed a total of $56,643.95 to their TNStars accounts. The average family contribution was $347 per account, and 140 accounts received the full $500 matching contribution.

New Accounts Opened
During Inaugural Qualifying Period
October 1, 2014 – June 30, 2015

Number of Accounts	Amount of Matching Funds	Contribution Amount (at least)
11	$ 100	$ 25
9	$ 200	$ 50
3	$ 400	$ 100
140	$ 500	$ 125

Tennessee Code Annotated, Section 65-5-113 allows some funds to be transferred from the small and minority-owned business assistance program to the board of trustees of the baccalaureate education system trust fund program to be utilized in an incentive plan for low-income individuals. The TIPS program was created to take advantage of those funds to help low-income families save for post-secondary education expenses.

Chairs of Excellence Program
Jaye Chavis, Administrator

The Chairs of Excellence (COE) Trust was envisioned as an accessible source of funding for universities seeking to attract top academic talent through endowed professorships. The program is open to each of Tennessee's public four-year colleges and universities as well as the UT Space Institute. Under the program, a chair is established through private donations combined with matching contributions from the state. State law mandates that the corpus of the trust may not be expended for any purposes; therefore, distributions are made solely through investment earnings. While funds deposited by members of the public, businesses or foundations may be invested in equity securities, state funds are restricted to investment in fixed income securities. Since the beginning of the program in 1984, there have been 99 chairs created, with state appropriations totaling $44.4 million and matching contributions totaling $56.0 million.

FIVE-YEAR HISTORY
FISCAL YEARS 2011-2015

Fiscal Year	Investment Income/(Loss)	Total Spending of the Chairs	Asset Balance
2015	$ 9,443,435	$ 7,491,744	$ 296,264,116
2014	41,908,051	7,128,688	294,554,531
2013	23,379,827	7,129,665	261,807,326
2012	10,300,357	7,108,557	245,745,038
2011	34,346,000	6,561,577	243,105,645

The Chairs of Excellence portfolio can be found on page 65, and Financial Statements can be found on pages 81-87.

Certified Public Administrators Program
Jaye Chavis, Administrator

The University of Tennessee Institute for Public Service administers the "County Official's Certificate Training Program Act." Certain full-time county officials are eligible for an educational incentive payment if the officials have completed the continuing education requirements of the program. Educational incentive payments are issued annually by the Department of Treasury based on a list of eligible recipients provided by The UT Institute for Public Service.

The following table outlines county officials receiving payment in October, 2014 based on job type.

County Official	Number Receiving Payment	County Official	Number Receiving Payment
Register of Deeds	57	Chief Administrative Officer of Highways	12
Trustee	54	Sheriff	5
Clerk & Master	47	Juvenile Court Clerk	3
County Clerk	47	Criminal Court Clerk	2
Circuit Court Clerk	43	General Sessions Court Clerk	1
County Mayor/County Executive	32	Probate Court Clerk	0
Assessor of Property	22	Total	325

The table below outlines a five-year history of educational incentive payments. Payment amount are determined by the program's annual state appropriate divided by the number of eligible recipients in that year.

Fiscal Year Ended June 30	Recipients	Amount Paid Per Recipient	Total Payments
2015	325	$ 1,253	$ 407,225
2014	327	1,249	408,423
2013	328	1,242	407,376
2012	299	1,362	407,238
2011	332	1,223	406,036

Each county is encouraged and authorized to provide, through its annual budget, for an additional payment of an annual educational incentive to employees who have attained the "Certified Public Administrator" designation. This incentive is not to exceed $3,000 less any incentive payment made by the Department of Treasury. Such payments shall be paid by the county by October 31 of each year. The County Mayors shall provide to the State Treasurer the amount of any educational incentive paid by the county and the number of persons receiving such incentive. Summary information is provided below:

Number of Counties that Provided an Incentive	15
Number of Counties that Did Not Provide an Incentive	62
Number of Counties that Did Not Provide Information	18
Total	95
Total Amount of Incentives Paid	$254,851
Total Number of Recipients	168
Average Incentive Payment	$ 1,517

Small and Minority-Owned Business (SMOB) Assistance Program
Jaye Chavis, Administrator
treasury.tn.gov/smob

The Treasury Department administers the daily operations of the SMOB program and oversees activities of the lenders who make loans to businesses that qualify for participation. The principle function of the SMOB Program is to provide a significant state-wide platform through a support structure that fosters the expansion of small and minority-owned businesses in Tennessee. The SMOB program consists of two components: loans and program services.

Lenders for the SMOB program:

- Chattanooga Neighborhood Enterprises
- East Tennessee Development District
- Nashville Minority Business Development Loan Fund
- Pathway Lending
- South Central Tennessee Development District
- Tri-State Bank of Memphis

OUTSTANDING LOANS AS OF JUNE 30, 2015

Race	Male	Female	Number of Loans	Total Loans By Race
African-American	$210,737	$537,637	21	$ 748,374
White	284,286	134,851	10	419,137
Other	31,760	0	1	31,760
Total Loans	$526,783	$672,488	32	$1,199,271

Tennessee Consolidated Retirement System
Jill Bachus, Director
Jamie Wayman, Assistant Director
treasury.tn.gov/tcrs

The Tennessee Consolidated Retirement System (TCRS) was established July 1, 1972. Before the retirement system was consolidated, there were seven different public employee retirement systems. Qualified under 401 (a) of the Internal Revenue Code, TCRS is the defined benefit plan for state employees, higher education employees, teachers, and local government employees.

TCRS publishes a comprehensive annual report each year. The full report for the fiscal year ending June 30, 2015 can be accessed here.

Membership

Membership in TCRS is a condition of employment for full-time state employees, teachers, general employees in higher education, and the employees of local governments that participate in TCRS. Membership is optional for certain part-time employees. Faculty employees and employees exempt from the Federal Fair Labor Standards Act in higher education may participate in either TCRS or an Optional Retirement Program (ORP), which is a defined contribution plan designed for faculty employees in institutions of higher education. Beginning July 1, 2014, new state employees and Tennessee public school teachers are enrolled in the hybrid pension plan, a plan comprised of the defined benefit managed by TCRS and deferred compensation components, where assets go into the state's 401 (k) plan.

As of June 30, 2015, there were 231,778 active members in TCRS, of which 20,182 were active members of the hybrid pension plan.

Active Members
Fiscal Years 2011-2015

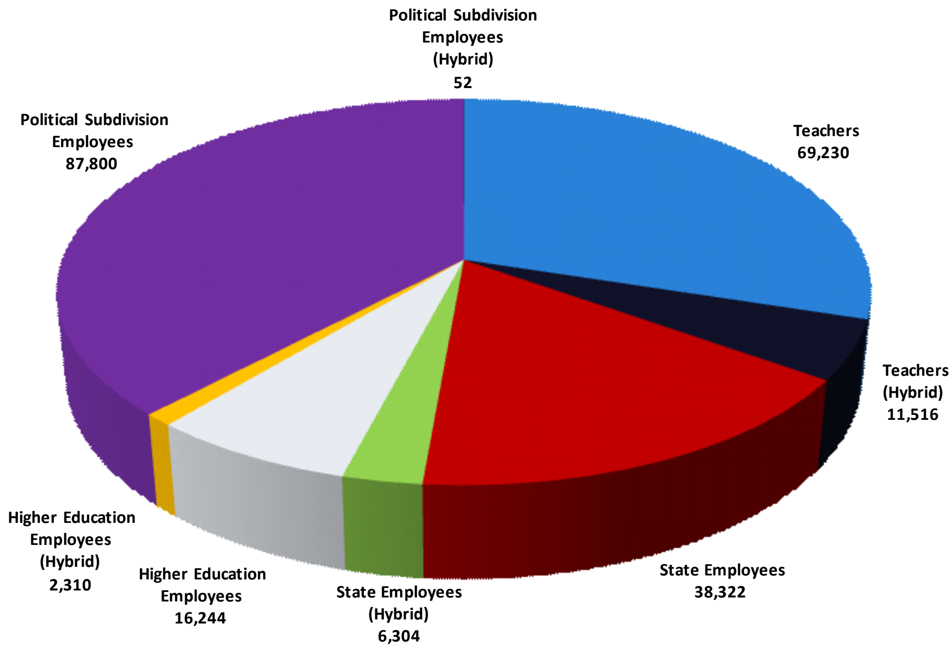
**Reflects one full year of eligibility.*



Contributions

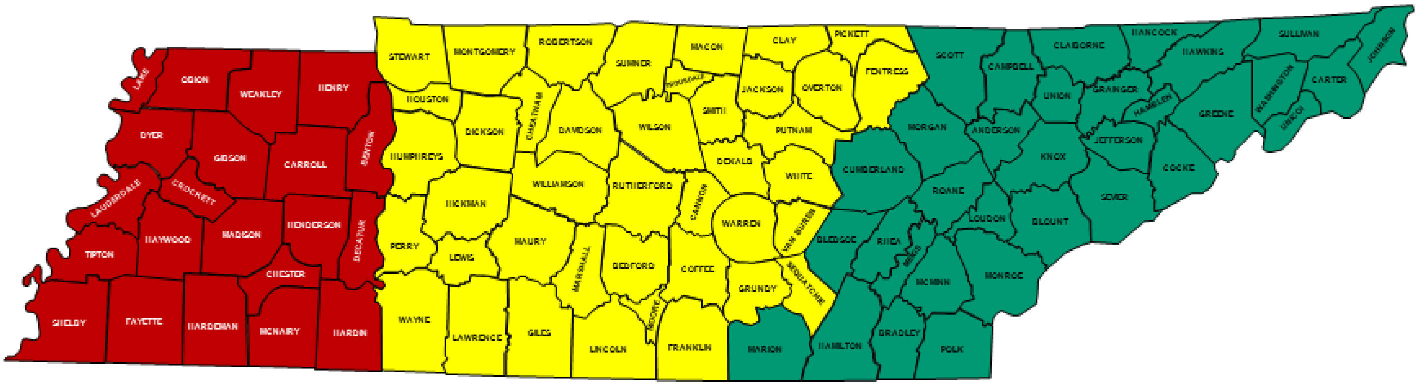
The funding of retirement benefits is financed by member contributions, employer contributions, and the earnings of the invested assets. The employee contributions of certain state employees and higher education employees are assumed by the state. State and Higher Education Employees hired after July 1, 2014 are contributory members. Local governments may adopt either contributory or noncontributory provisions for their employees. Tennessee public school teachers are contributory members of TCRS. Most employee contributions are assessed at 5% of salary, but may vary by classification.

The contribution rate for the employers participating in the retirement system is determined by an actuarial valuation performed by an independent actuarial firm. The contribution rates include funding for the basic benefit, the cost-of-living increase provisions, and amortization of any accrued liability. Employer contribution rates for local governments are individually determined. The contribution rates for both employer and employee for the year ending June 30, 2015 were as follows:

Legacy Plan			
		Employer	Employee
State and Higher Education	Defined Benefit Rate	15.03%	0%
	Defined Contribution Rate	n/a	n/a
Teacher	Defined Benefit Rate	9.04%	5.00%
	Defined Contribution Rate	n/a	n/a
ORP and Higher Education		10%	0%
Hybrid Plan			
		Employer	Employee
State, Higher Education, and Teachers	Defined Benefit Rate	4.00%	5.00%
	Defined Contribution Rate	5.00%	2.00%
Totals		**9.00%**	**7.00%**
ORP (Higher Education Only)		9.00%	5.00%

Retirement Benefits

TCRS paid benefits to 138,975 retirees, totaling $2.2 billion in benefits paid in fiscal year 2015. Of those receiving a retirement benefit from TCRS, 93% currently reside in Tennessee. TCRS pays benefits to retirees in each of the 95 Tennessee counties.



West Tennessee	Middle Tennessee	East Tennessee
33 Counties	41 Counties	21 Counties
50,509 Retirees	46,273 Retirees	31,301 Retirees

Eligibility

In the closed pension plan for state employees and teachers, which remains open for certain local government employees, the benefit accrual formula under the defined benefit plan is 1.575% based on a five-year average salary. Employees in this plan become eligible to retire from the TCRS at age 60 with five years of service or at any age with 30 years of service. State employees, teachers, and most political subdivision employees become vested after five years of service. A reduced retirement benefit is available to vested members at age 55 or upon completion of 25 years of service.

For the hybrid pension plan, the benefit accrual formula under the defined benefit plan is 1% based on a five year average salary. Eligibility to retire is age 65 or the Rule of 90 (where age and service equal 90). Employees participating in the defined benefit pension plan become vested after five years of service. In addition, employees have immediate vesting to contributions deposited in the deferred compensation plan. A reduced retirement benefit is available to vested members at age 60 or upon reaching the Rule of 80.

Death and Disability Benefits

Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability benefits paid to active members whose disability is a result of an accident or injury occurring while the member was in the performance of duty.

Certain death benefits are available to the beneficiary(s) of a member who dies prior to retirement. At retirement, a member may select an optional benefit that is actuarially reduced so that his beneficiary may continue to receive a benefit after his death.

Cost-of-Living Adjustments (COLA)

Cost-of-living adjustments (COLA) after retirement are based on the Consumer Price Index (CPI). If there is an increase in the CPI of as much as .5% in any calendar year, the retired member's benefit will be adjusted by an amount equal to the increase in the CPI, not to exceed 3% nor be less than 1%.

Actuarial Valuation

An actuarial valuation of the TCRS is performed by an independent actuarial firm every two years. Beginning July 1, 2015, the actuarial valuation will occur annually. The purpose of the valuation is to assess the funding status and to determine the funding requirements for the employers participating in the TCRS. The valuation was performed July 1, 2013 to establish the employer contribution rates effective July 1, 2014 through June 30, 2016. The TCRS Board of Trustees is responsible for adopting the employer contribution rates after reviewing the actuarial results. In addition to the actuarial valuation, an experience study is conducted every four years for the purpose of establishing actuarial and economic assumptions to be used in the actuarial valuation process.

Due to new Governmental Accounting Standards Board (GASB) pronouncements, an actuarial valuation was performed as of June 30, 2014 to determine the TCRS financial position. The net pension liability and funded percentage is as follows:

	State	Teachers	Local Governments
Net Pension Liability (Asset)	$689.9 million	($16.2 million)	($171.5 million)
Funded Percentage	95.11%	100.08%	102.12%

Following are the assumptions used in the July 1, 2013 actuarial valuation of the plan:

Economic Assumptions

(1) 7.5% annual return on investments

(2) Graded salary scale reflecting plan experience

(3) 3.5% annual increase in Social Security wage base

Actuarial Assumptions

(1) Pre-Retirement mortality based on age and sex

(2) Post-Retirement mortality based on age

(3) Disability rate based on age

(4) Turnover rate based on age and length of service

(5) Retirement age distribution based on age and service

Political Subdivisions

Political subdivisions may participate in the TCRS if the chief governing body passes a resolution authorizing coverage and accepting the liability associated with the coverage. Each political subdivision is responsible for the retirement cost of its employees and, in addition to employer contributions, pays the TCRS a fee for TCRS administration.

Political Subdivision Participation

Participation as of June 30, 2015:

Cities	178
Counties	87
Utility Districts	71
Special School Districts	19
Local Education Agencies	5
Joint Ventures	22
Housing Authorities	11
911 Emergency Communication Districts	47
Miscellaneous Authorities	57
Total	**497**

The 2015 Comprehensive Annual Financial Report for TCRS can be accessed here.

Social Security

When the Social Security Act (the Act) passed in 1935, government employees were determined to be excluded from coverage. However, the option to voluntarily join Social Security and Medicare was made available to state and local governments effective January 1, 1951.

As part of the legal requirements of the Social Security Act, the State of Tennessee is required to appoint a State Social Security Administrator (SSSA). Since the establishment of the Old Age & Survivors Insurance Agency (OASI) in the early 1950s, there have been only six SSSAs administering Section 218 of the Act for Tennessee public employees. Section 218 relates to coverage agreements and modifications as well as to coverage determinations.

Prior to 1951, Social Security coverage was not available to public employees. Amendments to the Social Security Act made in 1950 allowed certain groups of state and local government employees who were not covered by an employer-sponsored retirement plan to voluntarily participate in Social Security. Amendments made in 1954 allowed coverage for public employees who were covered by an employer-sponsored retirement plan if federal referendum requirements were met.

The Tennessee Master Agreement was executed on August 16, 1951. It provided full Social Security coverage (retirement, survivors, disability and hospital insurance) to public employees who were not covered by an employer-sponsored retirement plan. A modification to the agreement, effective January 1, 1956, provided Social Security coverage to employees serving in positions which were then covered by the Tennessee State Retirement System and the Tennessee Teachers' Retirement System. After the Tennessee Consolidated Retirement System was established July 1, 1972, a statewide Social Security coverage referendum was held among eligible employees.

The 1985 Budget Reconciliation Act mandated Medicare hospital insurance coverage for public employees hired after March 31, 1986 who do not have full Social Security coverage. In January 1987, the Internal Revenue Service took over collection of state and local government employee FICA taxes. Prior to 1987, the State and local entities turned the money over to the State Administrator who then turned the collected taxes over to the Social Security Administration by depositing the funds in the nearest Federal Reserve Bank. The Omnibus Budget Reconciliation Act of 1990 (OBRA) generally mandated full Social Security coverage for state and local government employees who are not covered by an employer-sponsored retirement plan.

Effective in 1991, separate wage bases were implemented for Social Security and Medicare and separate reporting of withholding was required.

Financial Statements for the Tennessee Consolidated Retirement System can be found on pages 125-151.

Flexible Benefits Plan

treasury.tn.gov/flex

The Flexible Benefits Plan is an optional benefit plan that enables state employees to pay for certain expenses with tax-free salary. Authorized under Section 125 of the Internal Revenue Code, this plan allows employees to avoid income tax and Social Security tax on the portion of the upcoming year's salary they agree to set aside for that year's (1) group medical insurance premiums, (2) group dental insurance premiums, (3) out-of-pocket medical expenses and (4) dependent care expenses.

In exchange for its favorable tax treatment, the plan must comply with specific rules set forth by the Internal Revenue Code and Regulations. Employees must decide what they will purchase through the plan and how much they will spend before the year begins. State employees enrolled in a group health or dental insurance program are automatically enrolled in the insurance premium portion of the plan. Use of the other benefit options requires a new election each year.

Enrollment in the plan is for a full calendar year. Enrollments may not be changed after the year has begun unless the employee experiences a change in family status and reports that change promptly. Employees must use the amounts set aside in each category for corresponding expenses incurred during the year and any amount not used by the employee must be subject to forfeiture.

Effective January 1, 2009, the Flexible Benefits Plan offers employees the opportunity to open transportation and parking flexible benefits accounts as authorized by Section 132 of the Internal Revenue Code. These accounts benefit employees by allowing them to designate an amount, up to the established limitations, to be withheld from their paychecks as a pre-tax benefit. These deductions are exempt from Federal Income and Social Security taxes. Participation in this program will result in the employee having a lower tax obligation during each calendar year in which they participate.

Unlike medical and dependent care flexible benefits accounts, there is no requirement for new employees to enroll within 30 days of being hired and there is no annual enrollment period for existing employees. An employee may enroll in a transportation account and/or a parking account at any time during employment. Transportation and parking flexible benefits accounts can be terminated at any time by the employee.

At June 30, 2015, over 35,000 state employees were enrolled in one or more of the plan's four Section 125 options: 35,116 employees used the plan to pay medical insurance premiums, 28,050 paid dental insurance premiums, 3,417 used the medical expense reimbursement account and 357 used the dependent care reimbursement account. In addition, 223 and 51 state employees participated in the parking and transportation reimbursement accounts, respectively.

Financial Statements for the Flexible Benefits Plan can be found on pages 97-98.

Divisions of Risk Management and Claims Administration
Rodney Escobar, Director
Amy Dunlap, Assistant Director

Risk Management

treasury.tn.gov/risk

The State of Tennessee is self-insured and Risk Management oversees the purchase of insurance for various potential exposures, promotes loss prevention, and suggests and monitors safety initiatives among the State participants. The State contracts with private insurance brokers to research the insurance market and targets only highly-rated insurance carriers which are capable and willing to provide competitive insurance quotes for the state's various lines of coverage. This ensures the best possible coverage at the best rates, year after year. These ongoing efforts produce insurance coverage for all State-owned buildings and contents, including:

- losses due to flood and earthquake
- aviation
- fine arts
- boilers and inspection services
- cyber liability
- fidelity and crime protection against employee dishonesty

From July 1, 2014 to June 30, 2015, the State's total insured property values were $20,566,483,500.

Loss prevention and control services are also provided for workers' compensation and tort liability.

See below chart for lines of insurance, coverages, limits, deductibles/self-insurance retention, and premiums:

**Note: On May 8, 2012, the Board of Claims adopted a requirement for contractors shall provide Builders Risk Insurance Coverage for all construction contracts. The State no longer provides this coverage for State construction projects.*

Cyber Incident Response Plan (CIRP)

The Board of Claims authorized Risk Management to purchase a cyber liability insurance policy to cover all agencies of General Government, the University of Tennessee higher education system, and the Tennessee Board of Regents higher education system effective July 1, 2013. The cyber insurance policy covers items such as privacy breach response costs including customer notification and credit monitoring with a $3 million aggregate limit, security and privacy liability with a $5 million aggregate limit, and network asset protection that has a $1 million aggregate limit. The insurance deductible for the Cyber Policy is $500,000 per occurrence. In 2014-2015FY, Risk Management developed a Cyber Incident Response Plan (CIRP) that is designed to assist all State agencies, Tennessee Board of Regents, and the University of Tennessee in the event of a cyber-incident involving a data breach of personal identifiable information, health information, business account information, and educational information. Cyber Incident Response Plan (CIRP) is used as a structured guide in the event an agency and/or higher learning institution experiences a cyber-incident. The CIRP will help these state entities with assessing, reviewing, responding to, and recovering from the adverse effects of cyber-incidents, and ensure that the State complies with the terms and conditions of its cyber liability insurance policy necessary for reimbursement. The Cyber Incident Response Plan was reviewed by Strategic Technology Solutions, Comptroller's Office, and the Treasury Department. The Cyber Incident Response Plan is projected to be disseminated statewide in January 2016.

Note: On January 7, 2016, the Cyber Incident Response Plan was signed by Treasurer Lillard and submitted to all state entities.

Financial Statements for the Risk Management Fund can be found on pages 107-111.

Claims Administration

treasury.tn.gov/ClaimsAdmin

Claims Administration reviews and makes determinations on claims made against the State (workers' compensation by state employees, employee property damage, and tort liability), as well as claims filed for criminal injuries compensation, sexual assault forensic examination reimbursement and interlock reimbursement. The division also provides support to the Board of Claims.

Workers' Compensation

treasury.tn.gov/wc

The division contracts with a third-party administrator for the processing of workers' compensation claims and provides managed-care services to all state employees who are injured while performing their daily work duties. The current third-party administrator, Corvel, administers a provider network for medical treatment to ensure the best quality care for assisting injured employees with their recovery process. Managed-care services also provide 24/7 nurse triage, pre-certification for inpatient hospital care, bill review, large case management, and other services to appropriately manage the costs of workers' compensation claims.

**Since a mandated fee schedule became effective in 2006, a preferred provider network has allowed the State to negotiate further savings after that mandatory reduction. In addition, the pharmacy network program for state employees and higher education employees generated savings on pharmacy expenses through discounts, utilization review, use of generic drugs, lower-cost home delivery, and monitoring for abuse/misuse of employees and medical prescribers.*

Our ultimate goals are to assist the injured employee with their recovery process, to provide access to exceptional medical services and providers, and to ensure excellent customer service during the entire workers' compensation process.

Workers' Compensation Program Highlights During Contract Year of September 1, 2014 - August 31, 2015

- Implementation of a 24/7 nurse triage to promote immediate medical care for injured employee, reduce emergency room visits to treat minor injuries, provide a professional registered nurse to direct care instead of employer, reduce overall medical costs, and increase reporting of workplace injuries to reduce lag time notification to employer and TPA that assists with expediting initial medical treatment and follow up medical care for injured employee.

  The following illustrates utilization and outcomes of 24/7 nurse triage.

  ★ There were 3,258 calls to 24/7 Nurse Triage.

  ★ 1,077 of these calls (33%) resulted in Incidents Only (no medical treatment/Report only).

  ★ 81% of the average monthly reported claim volume in the fourth quarter of this past contract year had gone through the 24/7 Nurse Triage.

24/7 Recommendations	Claim Count	Average Incurred	Percentage

Tort Liability

treasury.tn.gov/ClaimsAdmin

State law provides a method for persons who have been allegedly damaged by the state to file a claim for documented damages; if appropriate, the claimant may be compensated for their loss or damage. Claims are paid through the Risk Management Fund. This fund is supported by premiums paid by each state department, agency and institution based on actuarial analysis. Examples of claims filed against the state include:

- the negligent operation of motor vehicles or machinery
- negligent care, custody and control of persons or property
- professional malpractice
- workers' compensation claims by state employees
- dangerous conditions on state-maintained highways and bridges
- nuisances created or maintained by the state.

The division operates in conjunction with the Attorney General's Office and the Tennessee Claims Commission in this claims process. See link to Claims Administration Claims and Payment Activity chart for additional information about claims and payments in FY 2015.

The Claims division's commitment and purpose is to be responsive, to provide exceptional service, and to build and maintain partnerships with the people we serve.

Criminal Injuries Compensation Fund

treasury.tn.gov/injury

One of the programs operated through the Division of Claims Administration, the Criminal Injuries Compensation ("CIC") Program, provides financial assistance that defrays the costs of medical services, loss of earnings, burial costs, and other pecuniary losses to either an innocent victim of a crime or to the dependents of a deceased victim.

Applications for Criminal Injuries Compensation are filed with the division and staff reviews the application to determine whether it is properly supported and eligible. This process includes obtaining supporting information from the appropriate District Attorney's office. Eligible payments are issued promptly and are payable directly to the service provider if the bill is unpaid, to the victim for out-of-pocket expenses and, if appropriate, his or her attorney. The current maximum overall benefit is $30,000 plus attorney's fees, when applicable. Since the first claims were paid in 1982, the program has awarded a total of more than $278 million to crime victims.

The division revised and simplified program brochures this year, and they are available in English and Spanish. Public awareness efforts have been expanded to include quarterly training of advocates across the state, attendance at victim-oriented events, and continuing to provide Internet-based program information. See the link to CICF Source of Funds chart, Claims Received chart and, when ready, Claims Paid chart for information concerning CIC Fund activities for FY 2015.

Financial Statements for the Criminal Injuries Compensation Fund can be found on pages 90-94.

Sexual Assault Forensic Exam Reimbursement (SAFE)

The Criminal Injuries Compensation Fund also funds reimbursement to facilities that perform sexual assault forensic exams for evidence collection concerning victims of certain sexually-oriented crimes. Facilities must bill the Fund (not the victim) and cannot seek any additional payment from the victim after payment by the Fund. Payment is up to a maximum of $750 for such services for crimes occurring on or after July 1, 2007. See link to CICF Revenue chart, Claims Received chart and, Claims Paid chart for information concerning SAFE claims and payments for FY 2015.

Teacher's Excess Liability Coverage

In 2015, the General Assembly passed the Educator's Liability Act to provide qualifying teachers excess liability coverage. The Act created the Tennessee Educator Liability Fund, which will serve our educators and student teachers which provides excess liability coverage automatically to teachers and student teachers at no cost.

The Claims Administration will be administering this program for all covered educators that file a claim to the Teacher's Liability Fund. Forms and information are on the division's website, treasury.tn.gov/ClaimsAdmin.

Interlock Assistance Fund

The Interlock Assistance Fund ("IAF") provides financial reimbursement to certified interlock installers for qualifying indigent participants required to have the device. An interlock ignition device is a mechanism installed in a vehicle requiring the driver to deliver a breath sample before the vehicle can be started in order to deter drinking and driving.

The interlock ignition program is under the oversight of the Tennessee Department of Safety and Homeland Security, who is responsible for the certification of providers, and awareness of the program. The Division of Claims Administration administers the reimbursement process for invoices filed by vendors through the Interlock Assistance Fund.

For participants who are eligible for assistance under IAF, the providers file invoices for reimbursement with the Division of Claims Administration along with supporting information during the period the device is required. Reimbursable services include installation, lease, maintenance, and removal of the device. The IAF made 773 payments for 121 participants in FY2015 totaling $73,576.

Unclaimed Property Division
John Gabriel, Director
treasury.tn.gov/unclaim

Unclaimed property is money that has been turned over to the State by businesses and organizations who cannot locate the rightful owners. Every year, millions of missing dollars are turned over, and the Unclaimed Property Division works to return unclaimed property to the rightful owner.

The Uniform Disposition of Unclaimed Property Act of 1978 provides that property that an organization or individual is holding for another person will be delivered to the State Treasurer for custody if the holder of the property has had no contact with the owner for a period of time, normally five years, and if the holder cannot locate the owner. Once property is delivered, the Treasurer utilizes various techniques to locate the owners. There is no time limit on claiming this property.

Unclaimed Property Remitted by Holders in 2015

During the period July 1, 2014 through June 30, 2015, $89.8 million of cash property was turned over to the Treasurer. This includes $30.8 million remitted by third-party audit organizations from out-of-state, non-reporting holders for Tennessee residents. An additional $2.0 million in proceeds from stock sales was recognized as revenue.

Entities with property to report to Tennessee's Unclaimed Property Division obtain forms, instructions, free software, and other valuable data from the division's website, treasury.tn.gov/unclaim. Many entities have expressed their appreciation for this easy access to reporting tools.

Sources of Unclaimed Property

	2015	2014	2013	2012	2011

Total	**100%**	**100%**	**100%**	**100%**	**100%**

Unclaimed Property Returned to Claimants in 2015

During the period July 1, 2014 through June 30, 2015, $40.4 million of cash property was returned by the Unclaimed Property Division to the owners or their heirs, local governments and reciprocal states, a 53% increase from the fiscal year ending June 30, 2014.

The Treasurer utilizes various methods to locate owners of unclaimed property. Initially, notification is sent to the last known address of each owner. If no response is received, additional search efforts are made through Department of Labor and Workforce Development records, telephone directories, drivers' license records, external locate research tool, and other sources. Finally, the names of owners and last known addresses are advertised in newspapers throughout the state.

Methods Used to Return Property			
Location Method	**Value of Claims**	**Number of Accounts**	**Average Claim Value**
Website Inquiries	$14,087,304	15,197	$ 927

Total Claim Payments	$35,649,831	32,508	$ 1,097
Interstate Exchanges	2,820,831	46	
Refunds to Local Governments*	1,977,397	33	
Total Payments	**$40,448,059**	**32,587**	

**Any local government in Tennessee that turns over unclaimed property to the state may request that the property be returned to the local government for safekeeping after it has been held by the state for 18 months.*

**Tennessee has reciprocal agreements with other unclaimed property programs in other states to exchange property held by one state for owners with a last known address in the other state.*

A searchable database of the owners' names is available on the division's Internet site: ClaimItTN.gov. In addition, the owners' names are available on the national website, Missing Money, at www.missingmoney.com.

Since the program began operations in 1979, $1.082 billion in unclaimed property has been reported to the Treasurer and $361.2 million has been returned to owners, heirs, local governments, and reciprocal states.

After all location techniques are employed, the Unclaimed Property Division is able to return approximately 60% of property that is turned over with an owner's name.

Tim McClure, Assistant CIO/Director of Cash Management
Thomas Kim, Director of Fixed Income
J.P. Rachmaninoff, Director of Real Estate
Daniel Crews, Director of Private Equity
Michael Keeler, Director of Equities

The Tennessee Treasury Department's Investment Division uses an in-house staff of 30 professionals with extensive education, professional training and certifications to manage its investments. This team includes members with a wealth of experience from various financial fields, including substantial institutional investor experience in both the public and private sectors. Led by Chief Investment Officer Michael Brakebill, the department achieves investment returns consistent with its peers while maintaining an investment expense that is among the lowest in the southeast.

The staff has a total of 26 professional designations, including 14 Charter Financial Analysts (CFA). The Investments staff has four Chartered Alternative Investment Analysts (CAIA), three Certified Public Accountants (CPA), two Certified Treasury Professionals (CTP), two Certified Government Finance Managers (CGFM), and one Chartered Market Technician (CMT). Our team also holds 21 graduate degrees from universities from around the country.

Selected Funds Managed Internally by the Treasury Investment Division

- ***Tennessee Consolidated Retirement System Trust (TCRS)*** – The largest fund managed by Treasury is the Tennessee Consolidated Retirement System Trust. Investment objectives for TCRS are to obtain the highest available return on investments consistent with the preservation of the principal, while maintaining sufficient liquidity to react to the changing environment and pay beneficiaries in a timely manner. As of June 30, 2015, the market value of the TCRS fund was approximately $43.2 billion.

- ***State Pooled Investment Fund (SPIF) and the Local Government Investment Pool (LGIP)*** – The Treasury Department manages state and local governments' short-term investments through a program known as the State Pooled Investment Fund (SPIF) and the Local Government Investment Pool (LGIP). The SPIF, with a June 30, 2015 balance of approximately $9.3 billion, includes the state's cash, dedicated reserves and trust funds, and the balance of the LGIP of approximately $2.68 billion. The LGIP provides short-term cash management to local governments.

- ***Tennessee Promise Endowment Trust*** – Treasury also manages the funds and produces investment income for the Tennessee Promise Endowment Trust. Established by the 108th General Assembly, Tennessee Promise provides students a last-dollar scholarship to a Tennessee Community College or Tennessee College of Applied Technology, meaning the scholarship will cover tuition and fees not covered by the Pell grant, the HOPE scholarship, or TSAA funds. As of June 30, 2015, the Tennessee Promise Endowment Trust has a market value of $377.6 million.

- ***Chairs of Excellence Trust*** – Treasury manages the funds and produces investment income for the Chairs of Excellent Trust. The trust provides funds for state colleges and universities to contract with persons of regional or national prominence to teach in specified academic areas. The funding of the program is provided through contributions made by private donors and matching amounts by the state.

Statutory Investment Authority

The investment authority for the Board of Trustees of TCRS is set out in Tennessee Code Annotated, Section 8-37-104. Pursuant to this authority and the investment terms, conditions and limitations outlined therein, the Board of Trustees approves the TCRS' investment policy.

TCRS' investment objectives, set by the Board for the Treasury Investment Division staff, are to obtain the highest available return on investments consistent with the preservation of principal, while maintaining sufficient liquidity to react to the changing environment and to pay beneficiaries in a timely manner.

TCRS' policies and the strategies implemented by the Investment Division staff serve to benefit plan members in several ways. The emphasis on a conservative asset allocation and high quality securities helps to ensure the soundness of the system and the ability to provide the needed funds upon a member's retirement.

Funds in the retirement system are actively managed with a diversified portfolio of high-quality domestic and international bonds, domestic and international stocks, real estate, private equity and short-term instruments. From time to time, pursuant to Tennessee Code Annotated, Section 8-37-114, the Treasury Investment Division engages outside investment managers to manage a limited number of asset classes or subclasses. In those instances, the Investment Division endeavors to use emerging investment managers to the greatest extent feasible within the bounds of financial and fiduciary prudence, as prescribed under Tennessee Code Annotated, Section 8-37-113.

To assist in the fiduciary responsibility for managing the TCRS portfolio, Strategic Investment Solutions, Inc. serves as the general investment consultant for TCRS. The Townsend Group serves as the real estate investment consultant and Cambridge Associates serves as the private equity consultant to TCRS.

State Street Company was the master bank custodian for TCRS, providing safekeeping and accounting services for the investment portfolio, during fiscal year 2015.

Cost of Investment Operation

The cost to operate the investment program for TCRS is about 13 basis points (.13%) of assets. The cost of 13 basis points includes the cost of personnel, operational cost, master bank custodian cost, record keeping and external manager fees. Commission cost for trades are capitalized. Recent peer comparisons of investment management fees and expenses indicate the investment program is managed very cost effectively.

Performance Measurement

TCRS' independent external investment consultant, Strategic Investment Solutions, Inc., provides performance measurement for TCRS. During the 2015 fiscal year, TCRS had a total return of 3.33%. U.S. stocks gained 7.85%, while the S&P 1500 Index gained 7.31%. Domestic bonds gained 2.76% versus the benchmark of 2.98%. International developed stocks lost 3.39% versus a loss of 5.64% for the benchmark. Real estate gained 12.82% versus 12.71% for the NCREIF index.

This schedule classifies Canadian investments as domestic securities, convertible bonds as fixed income securities and preferred stock as fixed income securities. For investment purposes convertible bonds and preferred stock are considered equity securities. Accordingly, the asset allocation percentages in this schedule will vary from the investment consultant's asset allocation percentages.

TCRS Investments Benchmark Analysis

Fiscal Year	(1) Public Fund Index Median Total Return	(2) TCRS Total Return
2015	3.2%	3.3%

Key to Ratings: All ratings presented are from Moody's Investors Service with the exception of some of the government agency securities. Moody's does not rate these securities. Standard & Poor's does provide ratings for the securities (AAA is Standard & Poor's highest rating). Government Securities are not rated per se' but are considered the best quality securities.

Moody's rates securities as follows:

Aaa	Best Quality
Aa	High Quality
A	Upper Medium Quality
Baa	Medium Quality
NR	Not Rated

State Cash Management

The State of Tennessee receives revenues from many sources such as taxes, licenses, fees and the federal government. As these monies are collected, they are deposited into one of the more than 80 financial institutions in Tennessee that have contracted with the state to serve as depositories. Under the state Constitution, the state may not spend more money on its programs than it has collected in revenues. Consequently, at any point in time the state has a sizable sum of money collected but not yet spent. These monies are invested by the Treasury Department until needed to pay for state expenses, payroll or benefit program disbursements.

During the 2015 fiscal year, the average balance of short term investments in the Treasurer's Cash Management program was $8,404,381,241 per month and interest income of $11,125,712 was earned for the fiscal year. This includes deposits in the Local Government Investment Pool administered by the Treasury Department.

The State Funding Board sets the investment policy for the state. The State Funding Board is composed of the Governor, Commissioner of Finance and Administration, Comptroller, Secretary of State and Treasurer. The foremost investment objective of the State Pooled Investment Fund is safety of principal, followed by liquidity and then yield.

The current investment policy for the State Pooled Investment Fund was established to follow SEC Rule 2a-7-like guidelines for a money market fund. The maximum maturity of any security can not exceed 397 days and the weighted average maturity must be 120 days or less.

Funds may be invested in collateralized certificates of deposit with authorized Tennessee financial institutions; bills, notes and bonds of the U.S. Treasury; other obligations guaranteed as to principal and interest by the U.S. or any of its agencies and repurchase agreements against obligations of the U.S. or its agencies. Securities underlying repurchase agreements must be book-entry and delivered to a third party custodian in the name of the State Treasurer. Funds may also be invested in prime commercial paper and prime banker's acceptances.

At June 30, 2015, investments had an average maturity of 110 days and an average weighted yield of .154%. The total balance in the State Pooled Investment Fund at June 30, 2015, $9,297,043,253 fair value, was allocated as follows: U.S. Treasury government and agency securities, 75.41%; overnight deposits, 4.62%; collateralized certificates of deposit, 11.90% and commercial paper, 8.07%.

Administration of Authorized State Depository Accounts

The Cash Management Division is responsible for the administration of the state's bank accounts in Tennessee financial institutions designated as authorized state depositories. Taxpayers and state agencies can deposit certain tax funds due to the state directly to any Treasurer's account at any authorized state depository.

The four most significant functions of administering the accounts are: (1) authorizing the state depository to accept state funds; (2) cash concentration; (3) collateralizing deposits and (4) monitoring collateral and deposits. Financial institutions' requests to become authorized state depositories are received in Cash Management, reviewed and forwarded to the appropriate state officials for consideration and approval.

The Cash Management Division is responsible for the cash concentration and management of all state depository accounts. Cash Management staff inquire on the balances of bank accounts and concentrate available funds into the State operating account to meet liquidity and investment needs. Account balances are drawn to the floor and concentrated by Fed wire or Automated Clearinghouse (ACH) transactions. The account floor is the minimum amount required by the financial institution for that particular account to earn interest. All of these state accounts are interest bearing.

Changes in branch banking laws and bank ownership due to mergers and acquisitions have brought about a need to quickly identify the parent bank, holding company and affiliate trustee custodians for state depositories. The ability to access and update this information on a database enhances the ability to monitor deposits and collateral based on appropriate bank ownership.

This same database is accessed for current account information, for balance inquiry and cash concentration. It automates the link from balance inquiry to cash concentration by generating an ACH transaction. This automation improves controls over cash balances. The account balance floors are automatically compared to the balances entered to calculate ACH transaction amounts.

State Collateral Program

Collateral is required to secure state deposits held in authorized state depository institutions. Statute sets the required collateral level at a market value of 105 percent of the value of the deposit secured, less the amount secured by the Federal Deposit Insurance Corporation. However, if the state depository is operating with a capital-to-asset ratio of less than five percent, additional collateral with a market value of $100,000 is required. Alternatively, a financial institution may pledge collateral via the collateral pool. The types of investment instruments which are eligible to be pledged as collateral are listed in this report on page 52.

The state of the economy and the financial environment have increased the importance of monitoring collateral. Cash Management staff review collateral daily, weekly and monthly. Any collateral deficiencies at authorized state depository institutions are reported to the Funding Board monthly. Reasons for under-collateralization include market price volatility of the security pledged, unexpected high deposits to an account, interest accruals, capital-to-asset ratios falling below five percent and principal paydowns on asset backed securities that have been pledged as collateral.

Collateral is held by an authorized trustee custodian in the name of the State of Tennessee. Treasury staff must authorize the receipt, release and substitution of all collateral.

Collateral Pool

treasury.tn.gov/bank

The operation of a collateral pool for banks is authorized by Tennessee Code Annotated, Section 9-4-501, et seq. The Collateral Pool operates under the jurisdiction of the Collateral Pool Board, which is comprised of four bankers and three government members representing state and local government divisions. The Collateral Pool Board has established rules and procedures that provide a low amount of risk and a high degree of efficiency for participating institutions.

While participation in the Collateral Pool is voluntary, participation is subject to application to and approval by the Collateral Pool Board. The Board has established minimum financial performance levels for applicants which must be met to ensure that program risk is minimized.

All public funds held by a pool participant are collateralized based on a collateral target calculated each month by the participant. The collateral target is based on the aggregate average balance of all public funds for the month multiplied by the pledge percentage level assigned to the participant by the Board.

The Board has established three different collateral pledge levels: 115 percent, 100 percent and 90 percent. The pledge level is based on financial criteria set by the Collateral Pool Board with the financially strongest institutions being eligible for the lowest pledge level. In March 2009, the Collateral Pool Board voted to suspend the 90% pledge level until further notice. Under the Collateral Pool, should a financial institution default with insufficient collateral to cover public deposits, then the other financial institutions must make up the difference on a pro rata basis. Accordingly, public funds are not at risk in the Collateral Pool.

All collateral transactions for the pool are monitored and processed through the Treasury Department using uniform statewide procedures. In addition, Treasury Department staff monitors all pool activity through the monthly, quarterly and annual reports required to be submitted by pool participants or obtained from third party sources.

The Collateral Pool provides collateral for both state funds and local government funds for those institutions participating in the pool. The Collateral Pool serves as a significant administrative advantage for local governments. Under the Collateral Pool, the Treasurer, rather than the local government, is responsible for monitoring the pledge level; pricing collateral; reconciling collateral monthly with the trustee custodian; monitoring collateral; pledging, releasing and substituting collateral and maintaining a trustee custodian relationship.

Currently, the Collateral Pool has 96 participant institutions collateralizing public funds in excess of $9.8 billion.

State Trust

The State Trust of Tennessee, a not-for-profit corporation chartered in the State of Tennessee in 1979, continues to be utilized to obtain check clearing services through the Federal Reserve Bank with a check redemption volume of 953,000 during fiscal year 2015 at an estimated savings of $80,000.

Financial Statements for the State Pooled Investment Fund can be found on pages 114-121.

Local Government Investment Pool

treasury.tn.gov/lgip

Tennessee municipalities, counties, school districts, utility districts, community service agencies, local government units, and political subdivisions can deposit monies with the Treasurer to be invested in the state cash management investment pool. Of course, these local governments can invest their monies directly in the money market if they so desire. However, by allowing their dollars to be invested by the state they eliminate the complexities of managing day-to-day investment and collateral relationships with banks and/or securities dealers. This allows cash managers who have previously been limited either by the relatively small amount of funds available for investment or the complexities of today's investment environment to take advantage of the volume and expertise of the Treasurer's cash management program.

The Local Government Investment Pool began operations in November of 1980. Participation in the LGIP program currently stands in excess of 2,850 accounts. The Department of Transportation (DOT) program has more than 800 active accounts.

Local governments which enter into agreements with the DOT often establish an LGIP account to fund the local matching portion of a highway project grant. These DOT accounts are available to provide the local match to the specific highway project in a timely manner while earning interest for the local government.
In a similar fashion, the Tennessee Board of Regents schools provide their matching portion of Capital Projects funds while earning interest for the benefit of the Board of Regents school.

An electronic banking system allows participants to access their accounts in a secure Internet application. Thus, participants are able to communicate their instructions by telephone, telefax, or the Internet.

In addition, voice mail telephone service has been provided to permit LGIP participants to give telephone transaction instructions while staff is busy on other telephone lines. Voice mail permits an increase in productivity while holding costs constant.

LGIP reports to participants are available online, including monthly statements and transaction confirmations. Monthly statements detail all debits and credits to the account during the month, the account's average daily balance, and interest credited. A transaction confirmation is available to the participant each time a deposit or withdrawal is made. Many participants rely on this documentation for daily and weekly reconciliations.

Participants earn interest on LGIP deposits based on the total portfolio return of the cash management pool, less a monthly administrative fee of five one hundredths of one percent (.05%). During the 2014 fiscal year, the average rate participants earned on their deposits after the fee reduction was .09%. Other activity is shown on the following schedule by participant group.

Local Government Investment Pool Schedule of Activity by Entity Type
Fiscal Year Ended June 30, 2015

	Account Balance 6/30/2014	Net Deposits/ (Withdrawals)	Gross Interest Credited	Administrative Fees	Account Balance 6/30/2015
Cities	$ 944,022,386	$ 163,599,105	$ 369,397	$ 494,393	$ 1,108,485,281
Counties	345,819,176	(50,072,285)	135,563	181,436	296,063,890

Other	387,832,600	63,485,007	144,862	193,881	451,656,350
	$ 2,505,238,086	$ 176,034,466	$ 974,618	$ 1,304,411	$ 2,683,551,581

State Cash Management Comparative Returns

In order to ensure that state investment returns reflect current market conditions, several market indicators are carefully monitored. Among these are rates reported daily in the Wall Street Journal, rates on U.S. Treasury securities and institutional money market funds. The following table illustrates state returns compared with three of these indicators.

Fiscal Year	(1) Total Pool Funds	(2) Merrill Lynch Institutional Fund	(3) Standard & Poor's 7-Day LGIP Yield Index	(4) 90-Day Treasury (CD Equivalent Yield)
2015	.14%	.04%	.05%	.07%
2014	.14%	.03%	.10%	.04%
2013	.18%	.08%	.08%	.07%
2012	.17%	.05%	.09%	.05%
2011	.26%	.16%	.14%	.11%

(1) Investment return on total portfolio.

(2) This index most closely resembles the structures and objectives of the total cash portfolio.

(3) Index is for LGIP benchmark pools rated AAAm & AAm by S&P.

(4) This approximates the reinvestment yield for new funds for the period.

Securities Acceptable as Collateral for State Deposits

1. U.S. Treasury Bills
2. U.S. Treasury Notes & Bonds
3. Federal Housing Administration (FHA) debentures
4. Government National Mortgage Associations (GNMA)*
5. Farm Credit System (FCS)
    a. Federal Land Bank Bond (FLBB)
    b. Farm Credit Systemwide Bonds (FCSB)
    c. Farm Credit Systemwide Discount Notes (FCDN)
    d. Farm Credit Systemwide Floating Rate Notes (FCFR)
6. Federal Home Loan Banks
    a. Bonds (FHLB)
    b. Discount Notes (FHDN)
    c. Floating Rate Notes (FHFR)
7. Federal Home Loan Mortgage Corporation (FHLMC)*
    a. Mortgage-Backed Participation Certificates and Adjustable Rate Securities (FMPC, FMAR)
    b. Discount Notes (FMDN)
8. Federal National Mortgage Association (FNMA)*
    a. Bonds, Debentures, Secondary Market Debt Obligations (FNSM)
    b. Discount Notes (FNDN)
    c. Floating Rate Notes (FNFR)
    d. Mortgage-Backed Pass-Through Certificates (FNRF)
    e. Residential Financing Securities (FNRF)
    f. Adjustable Rate Mortgage-Backed Bonds (FNAR)
9. Student Loan Marketing Association (SLMA)
    a. Discount Notes (SLDN)
    b. Fixed Rate Notes (SLMN)
    c. Floating Rate Notes (SLFR)
    d. Bonds (SLBD)
10. Tennessee Valley Authority Bonds and Notes (TVA)
11. Collateralized Mortgage Obligations (CMOs) and Real Estate Mortgage Investment Conduits (REMICs) that are direct obligations of a U.S. agency or FNMA/FHLMC, except that the "residual" class/tranche of such securities will not be acceptable. Sufficient excess securities should be pledged to allow for the periodic reduction of principal.
12. Certain Tennessee Municipal Bonds as specified in T.C.A. Section 9-4-103.
13. Surety Bonds issued by insurance companies meeting certain requirements, including licensure under the laws of Tennessee.
14. Standby Letters of Credit from approved Federal Home Loan Banks.

* *Pass through securities must reflect current paid down values and be kept up to date.*

Key to Ratings: All ratings presented are from Moody's Investors Service with the exception of some of the government agency securities. Moody's does not rate these securities. Standard & Poor's does provide ratings for the securities (AAA is Standard & Poor's highest rating). Government Securities are not rated per se', but are considered the best quality securities.

Moody's rates securities as follows:		
	Aaa	Best Quality
	Aa	High Quality
	A	Upper Medium Quality
	Baa	Medium Quality
	NR	Not Rated

Intermediate Term Investment Fund

treasury.tn.gov/lgip/interterminvfund

The Intermediate Term Investment Fund (ITIF) is an external investment pool sponsored by the State of Tennessee. All funds in the ITIF at June 30, 2015 consist of funds belonging to entities outside of the State of Tennessee Financial Reporting Entity, and have been included as a separate investment trust fund in the *Tennessee Comprehensive Annual Financial Report*.

Financial Statements for the Intermediate Term Investment Fund can be found on pages 101-104.

Legal, Compliance and Internal Audit Division
Christy Allen, Assistant Treasurer

- Advisory Council on Workers' Compensation
- Old Age and Survivors Insurance Agency
- Tennessee Claims Commission

The Legal, Compliance and Internal Audit Division ensures that a strong culture of compliance is an unalterable part of the Tennessee Treasury Department.

The Legal, Compliance and Internal Audit Division also supports, administers, or oversees the following:

- Advisory Council on Workers' Compensation
- Old Age and Survivors Insurance Agency (OASI)
- Tennessee Claims Commission

Legal

Treasury has seven in-house attorneys who serve as primary counsel to Treasurer Lillard and handle all legal matters pertaining to Treasury Department programs and related State Boards and Commissions. Because of the broad nature of Treasury's programs, attorneys deal with legal issues related to such areas as public pension plans, securities, tax, workers' compensation, contracts, and claims against the State.

Compliance
Jennifer Selliers, Compliance Officer

The Compliance division utilizes a double-faceted approach to developing, implementing, and administering a robust compliance program. Two staff compliance officers perform functions related to risk-based securities and investment compliance, and non-securities compliance. The program is reasonably designed to ensure that policies and procedures adhere to laws, rules and regulations, and to prevent, detect and, if necessary, remediate violations. The compliance officers also analyze investment activities and operations, monitor current investment processes and internal controls, and engage with Investment staff and outside parties on compliance-related matters.

Internal Audit
Earle Pierce, Director

Treasury's six in-house auditors support the Department and Treasurer Lillard by means of independent, objective evaluations of the Department's processes, operations, control systems, and functions. In-house audits and risk assessments are frequently performed on key business activities in order to improve department operations, assess compliance to rules and regulations, and address risks based on professional auditing standards. The oversight provided by internal auditors ensures compliance with policies, procedures, laws, regulations, and contracts that could have a significant impact on operations.

Treasury's auditors utilize an Audit Command Language (ACL) System to analyze databases for indications of fraud, errors and data anomalies, including the data of the Tennessee Consolidated Retirement System. Internal Audit has also recently begun performing participating employer census audits for TCRS as a result of the Governmental Accounting Standards Board (GASB) adopted statements 67 and 68 relating to accounting and financial reporting for pensions.

Advisory Council on Workers' Compensation (ACWC)

treasury.tn.gov/claims/wcadvisory

The Advisory Council on Workers' Compensation (ACWC) studies workers' compensation issues and provides information, research and recommendations concerning workers' compensation issues to the Tennessee General Assembly, the Department of Commerce and Insurance, and the Department of Labor and Workforce Development. The ACWC is authorized to monitor the performance of the workers' compensation system in the implementation of legislative directives, make recommendations relating to the adoption of rules and legislation, and to make recommendations regarding the method and form of statistical collections. In addition, at the request of the General Assembly, the ACWC annually reviews and provides comments and recommendations on proposed workers' compensation legislation.

The ACWC is comprised of the State Treasurer, who serves as Chair, three voting members who represent employees, three voting members who represent employers, ten nonvoting members, and four ex officio members.

Old Age and Survivors Insurance Agency (OASI – Social Security)

treasury.tn.gov/oasi/index

The Old Age and Survivors Insurance Agency (OASI) is responsible for administering the Social Security and Medicare coverage programs for state and local (public) government employers throughout the State of Tennessee pursuant to Section 218 of the Social Security Act. A significant part of the OASI's responsibilities is to assist Tennessee public employers by serving as a facilitator and communications bridge between the employers, the Social Security Administration (SSA), and the Internal Revenue Service (IRS). A State Social Security Administrator is assigned to maintain and administer this function.

Claims Commission

[*treasury.tn.gov/claims*](treasury.tn.gov/claims)

The Claims Commission is an administrative tribunal, created under Tennessee Code Annotated, Section 9-8-301, *et seq.*, to hear money damages claims against the state based on the acts or omissions of state employees in 22 statutory categories. Most notably, the Commission has jurisdiction over claims in tort (e.g. negligent care, custody and control of persons, property or animals; professional malpractice; negligent operation or maintenance of a motor vehicle; dangerous conditions on state maintained highways, or state controlled real property); claims for breach of a written contract; claims for recovery of taxes paid under protest to the Department of Commerce and Insurance; state workers compensation claims, and criminal injuries compensation claims. As a condition for the waiver of the state's sovereign immunity, state employees are immunized from liability for state law claims for acts or omissions within the scope of their employment, except for willful, malicious, or criminal acts. Claims are payable from the Risk Management Fund.

Damages for tort claims falling within the Commission's jurisdiction are limited to $300,000 per claimant or $1,000,000 per occurrence. There is no limitation on awards for breach of contract. The maximum award for criminal injuries compensation claims is $30,000.

There are three Claims Commissioners, each of whom hears cases arising in his or her grand division:

James A. Hamilton, III	Robert N. Hibbett	William (Bill) Shults
Western Division (Dyersburg)	Middle Division (Nashville)	Eastern Division (Newport)
Term Expires: June 30, 2023	Term Expires: June 30, 2019	Term Expires: June 30, 2017

As required by Tennessee Code Annotated, Section 9-8-302, the Commissioners are appointed by the Governor and confirmed by the General Assembly. In addition, the Commissioners must be residents of Tennessee for more than five years, must have been residents of their respective grand divisions for more than one year, must have practiced law for more than one year, and must not maintain a private law practice.

Claims Commission's Operation

Except for claims for the recovery of taxes, which are initiated by filing with the clerk of the Claims Commission, claims are commenced by filing a notice of claim with the Division of Claims Administration or in the case of workers' compensation actions with the third party administrator. If the claim is denied, it may be appealed to the Claims Commission. Claims upon which no action is taken within 90 days automatically transfer to the Commission.

The state is represented before the Commission by the Office of the Attorney General or his delegatee. The Commission maintains two separate dockets: a regular docket consisting of claims with a monetary value of more than $25,000 and a small claims docket for claims of $25,000 and under. The Tennessee Rules of Civil Procedure are applicable. Commissioners are required to make written findings of fact and conclusions of law in all regular docket claims. At the request of two Commissioners, the Commission can sit en banc to decide any matter in which there is a disagreement among Commissioners. Decisions in regular docket claims may be appealed to the Tennessee Court of Appeals and workers' compensation cases may be appealed to the Tennessee Supreme Court. Judgments rendered against the state in the Claims Commission are paid by the Division of Claims Administration.

SUPPORT SERVICES

Support Services Division
Rick DuBray, Second Deputy Treasurer

The Support Services divisions provide internal administrative support to the department, along with banking operations that support the State in general. Support Services is responsible for everything from infrastructure and technology support to facilities support and business resumption planning and implementation.

- Accounting
- Information Systems
- Management Services
- Financial Statements:
  - Baccalaureate Education System Trust
  - Chairs of Excellence Trust
  - Criminal Injuries Compensation Fund
  - Flexible Benefits Plan
  - Intermediate Term Investment Fund
  - Risk Management Fund
  - State Pooled Investment Fund
  - Tennessee Consolidated Retirement System
  - Tennessee Promise Scholarship Endowment Trust Fund
  - TNStars™ College Savings 529 Program

Tennessee Department of Treasury

Accounting
Kim Morrow, Director

The Treasury Accounting Division performs various financial controls and bank reconciliations in controlling the cash transactions of the State and provides accounting support and financial reporting for the various programs, investment portfolios and funds administered by the Treasurer's Office. The staff of 25 fulfills several accounting functions, including:

- Investments Accounting
- Bank Accounting
- Program and TCRS Accounting
- Financial Reporting and Compliance

Information Services
David Bauer, Acting Director

The Information Systems Division supports the Treasury Department by creating, maintaining, and managing the technology infrastructure needed for Department operations. The 42-person staff maintains Treasury software and infrastructure along with coordinating and implementing plans for business continuation in the event of a disaster or any event preventing employees from accessing Treasury offices. Primary roles of the Information Systems Division include:

- Application Support and Development
- Infrastructure, Security and Business Resumption
- Project Management
- Relationship Management and Business Analysis

Management Services
Kerry Hartley, Director

The 16-person staff of the Management Services Division serves as general administrative support to all of Treasury. They are responsible for such critical functions as:

- Budget and payroll
- Employee expense claim processing
- Departmental Records Management
- Purchasing and Facilities Management

Report on the Financial Statements

We have audited the accompanying statements of fiduciary net position of the Baccalaureate Education System Trust, Educational Services Plan, a private-purpose trust fund of the State of Tennessee, as of June 30, 2015, and June 30, 2014, the related statements of changes in fiduciary net position for the years then ended, and the related notes to the financial statements, which collectively comprise the Baccalaureate Education System Trust, Educational Services Plan's basic financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

(CONTINUED)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion. Tennessee statutes, in addition to audit responsibilities, entrust certain other responsibilities to the Comptroller of the Treasury. Those responsibilities include serving as a member of the board of the Baccalaureate Education System Trust. We do not believe that the Comptroller's service in this capacity affected our ability to conduct an independent audit of the Baccalaureate Education System Trust, Educational Services Plan.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position of the Baccalaureate Education System Trust, Educational Services Plan of the State of Tennessee as of June 30, 2015, and June 30, 2014, and the changes in fiduciary net position thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note A.1., the financial statements present only the Baccalaureate Education System Trust, Educational Services Plan, a private-purpose trust fund of the State of Tennessee, and do not purport to, and do not, present fairly the financial position of the State of Tennessee as of June 30, 2015, and June 30, 2014, and the changes in its financial position for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2015, on our consideration of the Baccalaureate Education System Trust, Educational Services Plan's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, and contracts and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Baccalaureate Education System Trust, Educational Services Plan's internal control over financial reporting and compliance.

Deborah V. Loveless

Deborah V. Loveless, CPA
Director

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. **Reporting Entity -** The Tennessee Baccalaureate Education System Trust Fund (BEST), Educational Services Plan (ESEP) is included in the State of Tennessee financial reporting entity. Because of the state's fiduciary responsibility, the BEST has been included in the *Tennessee Comprehensive Annual Financial Report* as a private-purpose trust fund.

2. **Measurement Focus and Basis of Accounting -** The accompanying financial statements have been prepared in accordance with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB). The financial statements have been prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred regardless of the timing of related cash flows.

3. **Cash and Cash Equivalents -** Cash and Cash Equivalents includes cash and short-term investments with a maturity date within three months of the acquisition date. Cash management pools are included as cash. Cash received that cannot be immediately invested in securities, or that is needed for operations, is invested in either the State Pooled Investment Fund sponsored by the State of Tennessee and administered by the State Treasurer or a short-term, open-end mutual fund under the contractual arrangement for master custody services. During the period from July 1, 2013 to August 31, 2014 cash would have been invested in the Northern Institutional Government Portfolio. During the period from September 1, 2014 to June 30, 2015 cash would have been invested in SSGA Government Money Market Fund.

4. **Method Used to Value Investments -** Investments are reported at fair value. Securities traded on a national exchange are valued at the last reported sales price. The fair value of investments in open-end mutual funds is based on the share price. Investment income consists of realized and unrealized appreciation (depreciation) in the fair value of investments and interest and dividend income. Interest income is recognized when earned. Securities and securities transactions are recorded in the financial statements on trade-date basis.

B. DEPOSITS AND INVESTMENTS

In accordance with State statute, the board shall cause the amount on deposit in the ESEP to be invested in any instrument or investment vehicle that the board deems reasonable and appropriate to achieve the objectives of the trust. The statutes also require the board establish an investment policy for the trust fund. The board has authorized assets of the trust fund to be invested in instruments, obligations, securities or other properties that constitute a legal investment for assets of the Tennessee Consolidated Retirement System (TCRS). State statute authorizes the TCRS to invest in bonds, debentures, preferred stock and common stock, real estate and in other good and solvent securities subject to the approval of the Board of Trustees. In addition, the assets of the ESEP may be pooled for investment purposes with the assets of the TCRS or any other assets under the custody of the State Treasurer. The authority for investing the assets of the ESEP is vested in its Board of Trustees and the responsibility for implementing the investment policy established by the Board is delegated to the State Treasurer.

The ESEP does not maintain its own bank accounts but utilizes the State Pooled Investment Fund for its operating cash needs. The State Pooled Investment Fund is authorized by state statute to invest funds in accordance with policy guidelines approved by the Funding Board of the State of Tennessee. The current resolution of that board gives the Treasurer authority to invest in collateralized certificates of deposit in authorized state depositories, prime commercial paper, prime bankers' acceptances, certain repurchase agreements, and various U.S. Treasury and Agency obligations. The State Pooled Investment Fund (SPIF) is also authorized to enter into securities lending agreements in which U.S. Government Securities may be loaned for a fee. The loaned securities are transferred to the borrower by the custodial agent upon simultaneous receipt of collateral

(CONTINUED)

securities. The investment policy and required risk disclosures relative to the State Pooled Investment Fund are presented on pages 114-121 of this report.

Credit Risk - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ESEP does not currently own specific fixed income securities, but chooses to invest in exchange traded funds (ETFs) that replicate the Vanguard Total Bond Market Index Fund. This ETF has been given a two-star rating by MorningStar and the underlying securities of the fund have an average credit quality rating of BBB or higher. The State Pooled Investment Fund has not obtained a credit quality rating from a nationally recognized credit ratings agency. Funds are held at the bank in accordance with the contract for master custodian services which was with Northern Trust at June 30, 2014 but was awarded to State Street on September 1, 2015. The Northern Institutional Government Portfolio had a credit quality rating of AAA at June 30, 2014 while the SSGA Government Money Market Fund was not rated by a nationally recognized credit rating agency at June 30, 2015.

The ESEP's investment policy states that the trust may acquire securities which are rated within the four highest grades at the time of acquisition by any of the recognized rating agencies. In addition, the policy requires that only the highest quality short-term debt issues, including commercial paper with ratings of A1 or P1, may be purchased. The policy further states that index funds may be utilized as an alternative to selecting individual securities.

Interest Rate Risk - Interest rate risk is the risk that future changes in prevailing market rates of interest will have an adverse effect on the fair value of debt investments. The fair values of securities with long terms to maturity may be highly sensitive to interest rate changes. The investment policy for the ESEP states that bonds generally will be purchased and held to maturity, but when necessary, the portfolio will be actively managed in times of volatile interest rate swings to shorten the average maturity and protect principal value. The average duration for the Vanguard Total Bond Market Index Fund was 5.70 years and 5.60 years at June 30, 2015 and June 30, 2014, respectively. Duration is a measure of a debt investment's exposure to fair value changes arising from changing interest rates. It uses the present value of cash flows weighted for those cash flows as a percentage of the investment's full price.

C. DESCRIPTION OF THE EDUCATIONAL SERVICES PLAN

The Tennessee Baccalaureate Education System Trust, Educational Services Plan, administered by the State Treasurer, was created under *Tennessee Code Annotated*, Title 49, Chapter 7, Part 8 for the purpose of improving higher education in the State of Tennessee by assisting students or their families to pay in advance, a portion of the tuition and other costs of attending colleges and universities. Under the program, a purchaser entered into a contract with the BEST Board of Trustees to purchase tuition units on behalf of a beneficiary. Each tuition unit purchased entitled the beneficiary to an amount no greater than one percent of the weighted average tuition of Tennessee's four-year public universities during the academic term in which it is used; however, the tuition unit or equivalent funds may be used at any accredited public or private, in-state or out-of-state institution. The purchase price of the tuition unit was determined annually by the BEST Board of Trustees with the assistance of an actuary to maintain the plan's financial soundness. The BEST Board of Trustees voted to discontinue selling new prepaid units of tuition as of November 22, 2010 due to the rising cost of tuition. This action had no effect on units purchased prior to that date. Refunds and tuition payments are guaranteed only to the extent that ESEP program funds are available and neither the State of Tennessee nor the BEST Board of Trustees is liable for any amount in excess of available program funds. The net position restricted for plan participants was $7,289,795 more at June 30, 2015, and $10,014,407 more at June 30, 2014, than the amounts needed to fund the outstanding tuition units at their weighted average tuition unit prices in effect at the respective dates.

Members of the General Assembly
Members of the Board of Trustees
The Honorable David H. Lillard, Jr., Treasurer

Report on the Financial Statements

We have audited the accompanying balance sheets of the Chairs of Excellence, a permanent fund of the State of Tennessee, as of June 30, 2015, and June 30, 2014, the related statements of revenues, expenditures, and changes in fund balances for the years then ended, and the related notes to the financial statements, which collectively comprise the Chairs of Excellence's basic financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

(CONTINUED)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion. Tennessee statutes, in addition to audit responsibilities, entrust certain other responsibilities to the Comptroller of the Treasury. Those responsibilities include serving as a member of the board of the Chairs of Excellence. We do not believe that the Comptroller's service in this capacity affected our ability to conduct an independent audit of the Chairs of Excellence.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Chairs of Excellence of the State of Tennessee as of June 30, 2015, and June 30, 2014, and the changes in financial position thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note A.1., the financial statements present only the Chairs of Excellence, a permanent fund, and do not purport to, and do not, present fairly the financial position of the State of Tennessee as of June 30, 2015, and June 30, 2014, and the changes in its financial position for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2015, on our consideration of the Chairs of Excellence's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, and contracts and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Chairs of Excellence's internal control over financial reporting and compliance.

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. **Reporting Entity -** The Chairs of Excellence (COE) Trust forms an integral part of the primary government and has been included as a permanent fund in the *Tennessee Comprehensive Annual Financial Report*.

2. **Measurement Focus and Basis of Accounting -** The accompanying financial statements have been prepared in accordance with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB), using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they become both measurable and available, and generally expenditures are recognized when the related fund liability is incurred. Interest associated with the current fiscal year is considered to be available if received in six months.

3. **Cash and Cash Equivalents -** Cash and cash equivalents includes cash and shortterm investments with a maturity date within three months of the acquisition date. Cash management pools are included as cash. Cash received that cannot be immediately invested in securities, or that is needed for operations, is invested in either the State Pooled Investment Fund sponsored by the State of Tennessee and administered by the State Treasurer or a short-term, open-end mutual fund under the contractual arrangement for master custody services. During the period from July 1, 2013 to August 31, 2014 cash would have been invested in the Northern Institutional Government Portfolio. During the period from September 1, 2014 to June 30, 2015 cash would have been invested in State Street Government Money Market Fund.

4. **Method Used to Value Investments -** Investments are reported at fair value. For fair value reporting, securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. The fair value of investments in open-end mutual funds and exchange traded funds is based on the share price. Investment income includes realized and unrealized appreciation (depreciation) in the fair value of investments, and interest and dividend income. Securities and securities transactions are recorded in the financial statements on trade date basis.

5. **Fund Balances -** Nonspendable fund balance includes amounts that cannot be spent because they are legally or contractually required to be maintained intact. The COE Trust's nonspendable corpus consists of funds provided by contributions from the state, colleges and universities, and private sources. Restricted fund balance includes amounts that are restricted for specific purposes stipulated by external resource providers, constitutionally, or through enabling legislation. The COE Trust's restricted fund balance consists of investment income that must be used for funding the Chairs of Excellence program.

B. DEPOSITS AND INVESTMENTS

State statute authorizes the funds of the COE Trust to be commingled for investment with other trust funds and other funds subject to investment by the State Treasurer. The COE Trust does not maintain its own bank accounts but utilizes the State Pooled Investment Fund for its operating cash needs. The State Pooled Investment Fund is authorized by state statute to invest funds in accordance with policy guidelines approved by the Funding Board of the State of Tennessee. The current resolution of that board gives the Treasurer authority to invest in collateralized certificates of deposit in authorized state depositories, prime commercial paper, prime bankers' acceptances, certain repurchase agreements and various U.S. Treasury and Agency obligations. The State Pooled Investment Fund is also authorized to enter into securities lending agreements in which U.S. Government Securities may be loaned for a fee. The loaned securities are transferred to the borrower by the custodial agent upon simultaneous receipt of collateral securities.

State statute also authorizes the Board of Trustees of the COE Trust to adopt an investment policy for the trust in accordance with the laws, guidelines and policies that govern investments by the Tennessee Consolidated Retirement System. The State Treasurer is responsible for the investment of trust funds in accordance with the

(CONTINUED)

policy established by the trustees. The investment policy of the COE Trust requires that public funds, capital gains on public funds, and all current income exceeding withdrawals be invested in fixed income securities. Private contributions may be invested in equity securities, including domestic and foreign common stocks, preferred stocks and convertible bonds. Subsequent to the initial funding of a chair, funds may be transferred from the equity corpus to the fixed income corpus but not from the fixed income corpus to the equity corpus.

State statutes governing the COE Trust investments and the COE Trust's investment policy authorize the COE Trust to invest in certain Exchange Traded Funds ("ETFs"). By way of reference to the state statutes governing investments for the Tennessee Consolidated Retirement System (TCRS) which, in turn, reference the state statutes governing investments for domestic life insurance companies, the COE Trust's investment policy and state statutes governing investments for the COE Trust require ETFs to be considered an equity interest in a business entity for the purpose of determining compliance with the policy and statutes' investment restrictions. As a result of this reference, there was a disparity between the investment statutes and policies of the COE and TCRS regarding ETF limitations. During the fiscal year ended June 30, 2014, the statutes applicable to the TCRS' investments were amended, providing that the investment limitations of domestic life insurance companies would apply to the TCRS and, in turn, to the COE Trust, unless the TCRS' board establishes different limitations through its investment policy. During the fiscal year ended June 30, 2014, the TCRS' board revised its investment policy pertaining to ETF's, allowing them to be included within the equity portfolio asset class limitation. These changes eliminated the disparity between investing for COE and TCRS regarding ETF's. During the years ended June 30, 2015 and June 30, 2014, the COE Trust's equity investments were within the overall limits on equity securities per statutory and policy provisions.

As of June 30, 2015 and June 30, 2014, the COE Trust had the following investments (expressed in thousands):

Total Fixed Income Securities	165,349	
Equity	172,886	
Total Investments as Shown on Statements	$ 338,235	

** Includes obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government which are not rated by credit rating agencies.*

(CONTINUED)

Credit Risk - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Credit quality ratings for the COE Trust's investments in fixed income securities as of June 30, 2015 and June 30, 2014 are included in the above schedule. Securities are rated using Standard and Poor's and/or Moody's and are presented above using the Standard and Poor's rating scale. The State Pooled Investment Fund has not obtained a credit quality rating from a nationally recognized credit ratings agency. The State Street Government Money Market Fund is not rated at June 30, 2015 and the Northern Institutional Government Portfolio has a credit quality rating of AAA at June 30, 2014.

The COE Trust's investment policy states that the majority of investments should be placed in high quality debt securities to produce adequate income with minimal risk. In addition, for short-term investments, the investment policy states that only the highest quality short-term debt issues should be purchased.

As noted above, the COE Trust does not maintain its own bank accounts but utilizes the State Pooled Investment Fund for its operating cash purposes. The investment policy and required risk disclosures relative to the State Pooled Investment Fund are presented on pages 114-121 of this report.

Concentration of Credit Risk - A concentration of investments in any one single issuer of debt securities presents a greater risk for loss in the event that the issuer fails on its obligations. The COE Trust had the following investment amounts and percentages of total investments at June 30, 2015 or June 30, 2014, in organizations representing five percent or more of total investments, excluding those organizations whose issues are explicitly guaranteed by the United States government, and investments in mutual funds, external investment pools, and other pooled investments:

	June 30, 2015		June 30, 2014	
Issuer Organization	**Fair Value**	**Percentage**	**Fair Value**	**Percentage**
Federal National Mortgage Association	$13,991,315	4.77%	$25,168,753	7.44%
Federal Home Loan Mortgage Corporation	9,563,384	3.26%	17,805,270	5.26%

The COE Trust's investment policy does not specifically address limitations on investing in any one issuer.

Interest Rate Risk - Interest rate risk is the risk that future changes in prevailing market rates of interest will have an adverse effect on the fair value of debt investments. The fair values of securities with long terms to maturity may be highly sensitive to interest rate changes. The investment policy for the COE Trust states that the maturity of its debt securities may range from short-term instruments, including investments in the State Pooled Investment Fund, to long-term bonds, with consideration of liquidity needs. However, the policy does not specifically address limits on investment maturities. The fixed income portfolio is benchmarked against the Barclays Aggregate Index and tends to have a duration within a tight range around that index. Duration is a measure of a debt investment's exposure to fair value changes arising from changing interest rates. It uses the present value of cash flows weighted for those cash flows as a percentage of the investment's full price. The COE Trust had the following investments and effective duration at June 30, 2015 and June 30, 2014 (expressed in thousands).

(CONTINUED)

(Expressed in Thousands)

Investment Type	Fair Value as of June 30, 2015	Effective Duration (years)	Fair Value as of June 30, 2014	Effective Duration (years)
Debt Investments				
U.S. Government Agencies	$ 7,556	2.68	$ 8,712	3.68
U.S. Government TIPS	28,143	6.89	38,145	8.06
U.S. Government Treasuries	17,206	7.78	22,526	4.39
Municipal Bonds	6,834	4.65	7,784	5.51
Government Asset Backed	1,725	6.25	2,654	5.69
Government Mortgage Backed	23,658	3.49	44,735	4.30
Corporate Asset Backed	577	4.14	1,779	2.43
Corporate Bonds	27,122	5.84	37,023	6.46
Corporate Mortgage Backed	3,455	2.99	1,991	1.88
Total Debt Investments	$116,276	5.54	$165,349	5.67

Asset Backed Securities - The COE Trust invests in collateralized mortgage obligations (CMOs) which are mortgage backed securities. These securities are based on cash flows from interest and principal payments on underlying mortgages. Therefore, they are sensitive to prepayments by mortgagees, which may result from a decline in interest rates. The fair value of CMOs at June 30, 2015 was $3,454,915 of which $3,179,383 were CMOs that are generally more sensitive to interest rate changes. The fair value of CMOs at June 30, 2014 was $1,990,815 of which $546,419 were CMOs that are generally more sensitive to interest rate changes.

C. **OTHER ACCOUNTING DISCLOSURES**

1. **Chairs of Excellence Endowment Trust -** The COE Trust is authorized by the 94th General Assembly to further the cause of education in Tennessee. The COE Trust is administered by the State Treasurer. The Trust is set up into two general accounts which equally divide any state appropriations: one for the University of Tennessee and one for the Tennessee Board of Regents. As each Chair is designated, a portion of the appropriation is transferred to a sub-account for that Chair. The awarding college or university must provide matching contributions, of which at least 50 percent of the funds are from private contributions.

   Ninety-nine Chairs have been established with matching contributions received totaling $55,958,388 as of June 30, 2015 and June 30, 2014. Total contributions to the COE Trust totaled $100,358,388 as of June 30, 2015 and June 30, 2014. This includes $44,400,000 from the State, $10,321,300 from Colleges and Universities, and $45,637,088 from private contributions as of June 30, 2015 and June 30, 2014.

2. **Other Funds -** Funds from the Academic Scholars Fund and Tennessee Student Assistance Corporation (TSAC) Endowment Scholarship Fund are combined with the COE Trust for investment purposes only. Both of these funds general account receives only the income earned on its principal and does not receive any COE Trust state contributions or appropriations. These funds are invested in domestic fixed income securities. The TN Promise Fund was established by Chapter No. 900 of the *Public Acts of 2014* for the purpose of funding the Tennessee Promise Scholarship Program. Funds held within the COE Trust for the Tennessee Student Assistance Corporation Endowment Scholarship Fund were transferred out to the TN Promise Trust Fund.

Members of the General Assembly
The Honorable David H. Lillard, Jr., Treasurer

Report on the Financial Statements

We have audited the accompanying balance sheets of the Criminal Injuries Compensation Fund, a special revenue fund of the State of Tennessee, as of June 30, 2015, and June 30, 2014, the related statements of revenues, expenditures, and changes in fund balance and revenues, expenditures, and changes in fund balance (budget and actual) for the years then ended, and the related notes to the financial statements, which collectively comprise the Criminal Injuries Compensation Fund's basic financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

(CONTINUED)

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Criminal Injuries Compensation Fund of the State of Tennessee as of June 30, 2015, and June 30, 2014, and the changes in financial position and the budgetary comparison thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note A.1., the financial statements present only the Criminal Injuries Compensation Fund, a special revenue fund, and do not purport to, and do not, present fairly the financial position of the State of Tennessee as of June 30, 2015, and June 30, 2014, and the changes in its financial position and the budgetary comparison for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2015, on our consideration of the Criminal Injuries Compensation Fund's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Criminal Injuries Compensation Fund's internal control over financial reporting and compliance.

See accompanying Notes to the Financial Statements.

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. **Reporting Entity -** The Criminal Injuries Compensation Fund (CICF) is part of the primary government and has been included in the *Tennessee Comprehensive Annual Financial Report* as a special revenue fund. The Criminal Injuries Compensation Program is funded through fines assessed in courts against certain criminal defendants upon conviction, fees levied against parolees and probationers, proceeds from bond forfeitures in felony cases, donations from individuals serving as jurors, interest income and a federal grant. Payments made under the CIC program are intended to defray the costs of medical services, loss of earnings, burial costs, and other pecuniary losses to either the victim of a crime or to the dependents of deceased victims.

2. **Measurement Focus and Basis of Accounting -** The accompanying financial statements have been prepared in accordance with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB) using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they become both measurable and available, and expenditures are recognized at the time the fund liabilities are incurred. For revenue recognition purposes, fines and bond forfeitures are considered to be available if received in the first sixty days of the new fiscal year. Federal grants, departmental services, and interest associated with the current fiscal year are all considered to be available if received in six months. All other revenue items are considered to be measurable and available only when cash is received by the Criminal Injuries Compensation Fund.

   Generally, the CICF receives both restricted and committed resources. Restricted funds are those that are restricted for specific purposes stipulated by external resource providers, constitutionally, or through enabling legislation. Committed funds can only be used for specific purposes as a result of constraints imposed by the Tennessee General Assembly-the fund's highest level of decision-making authority. Committed amounts cannot be used for any other purpose unless the Tennessee General Assembly removes those constraints by taking the same type of action (i.e., legislation). When both the restricted and other fund balance resources are available for use, it is the policy for the fund to use the restricted resources first, followed by the committed amounts.

3. **Cash -** The Criminal Injuries Compensation Fund does not maintain its own bank accounts but utilizes the State Pooled Investment Fund for its operating cash needs. The State Pooled Investment Fund is authorized by state statute to invest funds in accordance with policy guidelines approved by the Funding Board of the State of Tennessee. The current resolution of that board gives the Treasurer authority to invest in collateralized certificates of deposit in authorized state depositories, prime commercial paper, prime bankers' acceptances, certain repurchase agreements, and various U.S. Treasury and Agency obligations. The State Pooled Investment Fund is also authorized to enter into securities lending agreements in which U.S. Government Securities may be loaned for a fee. The loaned securities are transferred to the borrower by the custodial agent upon simultaneous receipt of collateral securities. The State Pooled Investment Fund is not rated by a nationally recognized statistical ratings agency. The investment policy and required risk disclosures relative to the State Pooled Investment Fund are presented on pages 114-121 of this report.

4. **Budgetary Process -** Legislation requires that annual budgets be adopted for special revenue funds. The proposed CICF budget is included in the budget proposal presented by the Governor to the General Assembly at the beginning of each annual legislative session. The CICF annual budget is prepared on the modified accrual basis of accounting. Budgetary control is maintained at the departmental level. Budget revisions during the year, reflecting program changes or administrative intradepartmental transfers, may be affected with certain executive and legislative branch approval. Only the legislature may transfer appropriations between departments.

(CONTINUED)

B. OTHER ACCOUNTING DISCLOSURES

1. **Due from Federal Government -** The receivable shown on the Balance Sheets as due from federal government includes funds for a grant awarded to the CICF under the Victims of Crime Act Formula Grant Program by the Department of Justice, Office of Justice Programs.

2. **Committed Fund Balance -** A portion of the fund balance has been committed for the Victims of Drunk Drivers Compensation Fund (VDDC) which is included in the Criminal Injuries Compensation Fund. A requirement of the CICF and VDDC combination is that a reserve be established annually for an amount equal to three times the awards paid for VDDC during the prior fiscal year. *Chapter 761 of the Public Acts of 1992* discusses the fund combination as well as the VDDC reserve requirement.

3. **Transfer to General Fund -** In accordance with the section 41, item 16 of Public Chapter 1029, of the 107th General Assembly of the State of Tennessee, a grant was awarded to the District Attorneys General for domestic violence prevention and drug enforcement activities from the CICF.

Report on the Financial Statements

We have audited the accompanying statements of fiduciary net position of the Flexible Benefits Plan, an employee benefit trust fund of the State of Tennessee, as of June 30, 2015, and June 30, 2014, the related statements of changes in fiduciary net position for the years then ended, and the related notes to the financial statements, which collectively comprise the Flexible Benefits Plan's basic financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

(CONTINUED)

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position of the Flexible Benefits Plan of the State of Tennessee as of June 30, 2015, and June 30, 2014, and the changes in fiduciary net position thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note A.1., the financial statements present only the Flexible Benefits Plan, an employee benefit trust fund of the State of Tennessee, and do not purport to, and do not, present fairly the financial position of the State of Tennessee as of June 30, 2015, and June 30, 2014, and the changes in its financial position for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2015, on our consideration of the Flexible Benefits Plan's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, and contracts and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Flexible Benefits Plan's internal control over financial reporting and compliance.

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. **Reporting Entity -** The Flexible Benefits Plan is made available to state employees as an employee benefit. This plan is included in the State of Tennessee Financial Reporting Entity. Because of the state's fiduciary responsibility, the Flexible Benefits Plan is included in the *Tennessee Comprehensive Annual Financial Report (CAFR)* as an employee benefit trust fund. The state offers its employees a cafeteria plan created in accordance with *Internal Revenue Code Section 125*. The plan is available on an optional basis to all state employees. Through the plan, employees may elect to direct a portion of their salary to pay for certain benefits. Benefits which may be purchased through the plan include state group medical insurance, state group dental insurance, out-of-pocket medical expenses and/or dependent care expenses. Because elections must be filed before the salary or the benefits are received and because salary directed to the plan may not be withdrawn by participants for any other purpose, salary directed to the plan is exempt from federal income tax and social security tax. Elections made by employees may not be changed during the plan year except in the event of a corresponding change in the participant's family status. Participants may claim expenses incurred through March 15th following the end of the plan year. Any contributions to the plan not withdrawn are forfeited to the state and are used for defraying administrative costs. In calendar year 2009, the state added reimbursement accounts for transportation and parking expenses in accordance with *Internal Revenue Code Section 132*. These plans operate in much the same manner as the *Section 125* plans in that employees may elect to direct a portion of their salary tax-exempt to pay for transportation or parking expenses. However, there are no restrictions on time of enrollment or account changes and any contributions not used will be rolled forward to the following year instead of forfeited.

2. **Measurement Focus and Basis of Accounting -** The accompanying financial statements have been prepared in accordance with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB). The financial statements have been prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash flows.

3. **Cash -** The Flexible Benefits Plan does not maintain its own bank accounts but utilizes the State Pooled Investment Fund for its operating cash needs. The State Pooled Investment Fund is authorized by state statute to invest funds in accordance with policy guidelines approved by the Funding Board of the State of Tennessee. The current resolution of that board gives the Treasurer authority to invest in collateralized certificates of deposit in authorized state depositories, prime commercial paper, prime bankers' acceptances, certain repurchase agreements, and various U.S. Treasury and Agency obligations. The State Pooled Investment Fund is also authorized to enter into securities lending agreements in which U.S. Government Securities may be loaned for a fee. The loaned securities are transferred to the borrower by the custodial agent upon simultaneous receipt of collateral securities. The State Pooled Investment Fund is not rated by a nationally recognized statistical ratings agency. The investment policy and required risk disclosures relative to the State Pooled Investment Fund are presented on pages 114-121 of this report.

4. **Participant Contribution Forfeitures and Plan Administration -** Participant contributions not reimbursed to participants and forfeited to the plan for the latest closed plan year are transferred to the Treasury Department and applied toward funding a portion of the plan administrative cost. The remaining administrative costs for the plan are recovered directly from funds of the participating employer agencies. The amount forfeited is reflected on the Statement of Changes in Fiduciary Net Position as administrative cost.

The Honorable David H. Lillard, Jr., Treasurer

Report on the Financial Statements

We have audited the accompanying statements of fiduciary net position of the Intermediate Term Investment Fund as of June 30, 2015 and June 30, 2014, the related statements of changes in fiduciary net position for the years then ended, and the related notes to the financial statements, which collectively comprise the Intermediate Term Investment Fund's basic financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

(CONTINUED)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion. Tennessee statutes, in addition to audit responsibilities, entrust certain other responsibilities to the Comptroller of the Treasury. Those responsibilities include serving as a member of the State Funding Board. We do not believe that the Comptroller's service in this capacity affected our ability to conduct an independent audit of the Intermediate Term Investment Fund.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position of the Intermediate Term Investment Fund of the State of Tennessee as of June 30, 2015, and June 30, 2014, and the changes in fiduciary net position thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note A.1., the financial statements present only the Intermediate Term Investment Fund of the State of Tennessee, and do not purport to, and do not, present fairly the financial position of the State of Tennessee as of June 30, 2015, and June 30, 2014, and the changes in its financial position for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2015, on our consideration of the Intermediate Term Investment Fund's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, and contracts and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Intermediate Term Investment Fund's internal control over financial reporting and compliance.

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. **Reporting Entity –** The Intermediate Term Investment Fund (ITIF) is an external investment pool sponsored by the State of Tennessee. All funds in the ITIF at June 30, 2015 and June 30, 2014 consist of funds belonging to entities outside of the State of Tennessee Financial Reporting Entity, and have been included as a separate investment trust fund in the *Tennessee Comprehensive Annual Financial Report*.

2. **Measurement Focus and Basis of Accounting –** The accompanying financial statements have been prepared in accordance with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB) using the economic resources measurement focus and the accrual basis of accounting. Under this basis, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash flows.

3. **Cash and Cash Equivalents –** Cash that cannot be immediately invested in securities, or that is needed for operations, is deposited in the State Pooled Investment Fund sponsored by the State of Tennessee and administered by the State Treasurer. This classification also includes short-term investments with a maturity date within three months of the date acquired by the State.

4. **Method Used to Report Investments and Participant Shares –** The ITIF is not registered with the Securities and Exchange Commission (SEC) as an investment company. Through the investment policy adopted by the Funding Board of the State of Tennessee (Funding Board), the fair value of investment positions in the ITIF is determined daily based on the fair value of the pool's underlying portfolio. Accordingly, the investments of the ITIF are reported at fair value on the statement of fiduciary net position. Securities traded on a national exchange are valued at the last reported market prices. In accordance with investment policy, purchases and redemptions are limited to the first working day of each quarter. During the fiscal years ended June 30, 2015 and June 30, 2014, the State had not obtained or provided any legally binding guarantees to support the value of participant shares. The State of Tennessee, or any other state or federal agency, does not guarantee that a participant will receive the value of its investment or interest thereon upon redemption of its shares. The State of Tennessee has not obtained a credit quality rating for the ITIF from a nationally recognized credit ratings agency.

B. INVESTMENTS

The ITIF is authorized by statute to invest funds in the investment instruments specified under statutes for the State Pooled Investment Fund (SPIF), and to invest funds in the State Pooled Investment Fund (SPIF), in accordance with policy guidelines for the ITIF as approved by the Funding Board. The current policy of the Funding Board for the ITIF gives the Treasurer approval to invest funds in bonds, notes, and treasury bills of the United States or other obligations guaranteed as to principal and interest by the United States or any of its agencies, obligations guaranteed as to principal and interest by the federal home loan mortgage corporation, federal national mortgage association, student loan marketing association and other United States government-sponsored corporations, prime commercial paper, prime bankers' acceptances, and repurchase agreements for obligations of the United States or its agencies. The investment in derivatives and equity investments of any type is prohibited. Under the ITIF's investment policy, the SPIF may be used for the purpose of cash administration, but shall not be used for the purpose of investment.

The current policy of the Funding Board for the SPIF gives the Treasurer authority to invest in collateralized certificates of deposit in authorized state depositories, prime commercial paper, prime bankers' acceptances, certain repurchase agreements, and various U.S. Treasury and Agency obligations. The State Pooled Investment Fund is also authorized to enter into securities lending agreements in which U.S. Government Securities may be loaned for a fee. The loaned securities are transferred to the borrower by the custodial agent upon simultaneous receipt of collateral securities. The State Pooled Investment Fund is not rated by a nationally-

(CONTINUED)

recognized statistical ratings agency. The investment policy and required risk disclosures relative to the State Pooled Investment Fund are presented on pages 114-121 of this report.

At June 30, 2015 the ITIF's investments consisted of United States government agency securities of $59,411,494 at fair value and $59,350,000 at par value. Interest rates on the securities ranged from .570% to 2.375%, and the number of days to maturity ranged from 408 to 1,484 days. At June 30, 2014, the ITIF's investments consisted of United States government agency securities of $199,962,737 at fair value and $199,600,000 at par value. Interest rates on the securities ranged from .125% to 2.500%, and the number of days to maturity ranged from 25 to 1,611 days.

Credit Risk – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ITIF's investment policy requires that prime banker's acceptances must be issued by domestic banks with a minimum AA long term debt rating or foreign banks with an AAA long term debt rating by a majority of the designated rating services that have rated the issuer. The short-term debt rating must be at least A1 or the equivalent by all of the rating services that rate the issuer. Commercial paper should be rated in the highest tier by all rating agencies that rate the paper. Commercial paper on a credit rating agency's negative credit watch list cannot be purchased under the investment policy. The policy requires that a credit analysis report on the corporation be prepared prior to acquisition of the commercial paper. Repurchase agreements must be done with primary dealers in government securities which have executed a master repurchase agreement with the State. Credit quality ratings for the ITIF's investments in debt securities as of June 30, 2015 consisted of $44,410,894 in fair value of securities rated AA by Standard and Poor's rating scale, and $15,000,600 in fair value of securities implicitely guaranteed by the United States government but not rated by Standard and Poor's ratings agency. Credit quality ratings for the ITIF's investments in debt securities as of June 30, 2014 consisted of $43,325,592 in fair value of securities rated AA by Standard and Poor's rating scale, and $156,637,145 in fair value of securities implicitly guaranteed by the United States government but not rated by Standard and Poor's ratings agency.

Concentration of Credit Risk – A concentration of investments in any one single issuer of debt securities presents a greater risk for loss in the event that the issuer fails on its obligations. It is the policy of the ITIF to diversify the investment portfolio in order to reduce the risk of loss resulting from over-concentration of assets in a specific maturity, a specific issuer, or a specific class of securities. Commercial paper acquisitions are monitored by policy to assure that no more than five percent (5%) of the portfolio market value at the date of acquisition, is invested in prime commercial paper of a single issuing corporation. The total holdings of an issuer's paper should not represent more than five percent (5%) of the issuing corporation's total outstanding commercial paper. Furthermore, purchases of prime commercial paper shall not exceed thirty-five percent (35%) of the fund's market value at the date of acquisition. In addition, the ITIF's investment policy limits the book value of prime banker's acceptances to five percent (5%) of the total book value of the pool and limits such investments in any one commercial bank to the lesser of five percent (5%) of the portfolio's book value or $25 million. The ITIF had the following investment amounts and percentages of total investments, in organizations representing five percent (5%) or more of total investments, excluding those organizations whose issues are explicitly guaranteed by the United States government, and investments in mutual funds, external investment pools, and other pooled investments:

(CONTINUED)

Issuer Organization	June 30,2015 Fair Value	June 30,2015 Percentage of Total Investments	June 30,2014 Fair Value	June 30,2014 Percentage of Total Investments
Federal Home Loan Banks	$21,482,442	36.16%	$67,700,568	33.86%
Federal Home Loan Mortgage Corporation	0	0.00%	62,849,070	31.43%
Federal Farm Credit Banks	22,875,952	38.50%	42,633,919	21.32%
Federal National Mortgage Association	15,053,100	25.34%	16,554,780	8.28%
Federal Agricultural Mortgage Corporation	0	0.00%	10,224,400	5.11%

Interest Rate Risk – Interest rate risk is the risk that future changes in prevailing market rates of interest will have an adverse effect on the fair value of debt investments. The fair values of securities with long terms to maturity may be highly sensitive to interest rate changes. The ITIF's investment policy with respect to maturity states that the dollar weighted average maturity of the Fund shall not exceed three (3) years, and that no security will be bought with a remaining life of over five (5) years. The maximum time period from the date of acquisition to maturity of government or agency securities may not exceed five (5) years. Prime commercial paper, including asset-backed commercial paper, shall not have a maturity that exceeds two hundred seventy (270) days. Individual repurchase agreement transactions shall not have a maturity that exceeds ninety (90) days. Prime banker's acceptances must have an original maturity of not more than two hundred seventy (270) days to be eligible for purchase, with the intent to hold to maturity, however they may be traded in the secondary market to maintain liquidity. At June 30, 2015, the effective duration of the ITIF's debt securities was 2.54 years while the effective duration at June 30, 2014 was 2.05 years.

C. OTHER ACCOUNTING DISCLOSURES

Description of the Intermediate Term Investment Fund – Pursuant to *Tennessee Code Annotated*, Section 9-4-608, the Funding Board was authorized to establish the Intermediate Term Investment Fund (ITIF) to provide a longer-term investment vehicle than the State Pooled Investment Fund (SPIF) for funds in the custody of a department or agency of the state, or a county trustee. The ITIF is administered by the State Treasurer within the guidelines established by the Funding Board, and the responsibility for the day-to-day administration of the ITIF, in accordance with investment policy, has been assigned to appropriate investment officials within the Treasury Department. Participants in the ITIF are advised to only invest monies in the pool that are not needed for short term liquidity, due to the daily pricing of the pool to the market and the potential for significant price volatility. Participants in the ITIF may include the general fund of the State and any department or agency of the State which is required by court order, contract, state or federal law or federal regulation to receive interest on invested funds, and which are authorized by the State Treasurer to participate in the ITIF. In addition, a county legislative body may authorize the county trustee to invest county funds in the ITIF. By statute, any entity that is eligible to participate in the State Pooled Investment Fund may participate in the ITIF. As indicated in Note 1 above, the ITIF is not registered as an investment company with the SEC. Investment in the ITIF is voluntary and participants may invest any amount for any length of time in the ITIF.

Participants' shares are sold and redeemed at a value based upon the daily fair value per share of the pool's underlying investments. For the fiscal years ended June 30, 2015 and June 30, 2014 an administrative fee of .05 percent was charged against each participant's average daily balance to provide funding for administrative expenses to operate the ITIF.

In the latter part of June of 2015, the ITIF began the sell of investment securities to fund the requested withdrawal of a participant. The cash was invested in the State Pooled Investment Fund until the settlement date of the withdrawal. Participants subsequently withdrew $100,000,000.00 on July 1, 2015.

STATE OF TENNESSEE
COMPTROLLER OF THE TREASURY
DEPARTMENT OF AUDIT
DIVISION OF STATE AUDIT
SUITE 1500 JAMES K. POLK STATE OFFICE BUILDING

FAX (615) 532-2765

Members of the General Assembly
Members of the Board of Claims
The Honorable David H. Lillard, Jr., Treasurer

Report on the Financial Statements

We have audited the accompanying statements of net position of the Risk Management Fund, an internal service fund of the State of Tennessee, as of June 30, 2015, and June 30, 2014, the related statements of revenues, expenses, and changes in fund net position and cash flows for the years then ended, and the related notes to the financial statements, which collectively comprise the Risk Management Fund's basic financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

(CONTINUED)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion. Tennessee statutes, in addition to audit responsibilities, entrust certain other responsibilities to the Comptroller of the Treasury. Those responsibilities include serving as a member of the Board of Claims. We do not believe that the Comptroller's service in this capacity affected our ability to conduct an independent audit of the Risk Management Fund.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Risk Management Fund of the State of Tennessee as of June 30, 2015, and June 30, 2014, and the changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note A.1., the financial statements present only the Risk Management Fund, an internal service fund of the State of Tennessee, and do not purport to, and do not, present fairly the financial position of the State of Tennessee as of June 30, 2015, and June 30, 2014, and the changes in its financial position and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2015, on our consideration of the Risk Management Fund's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, and contracts and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Risk Management Fund's internal control over financial reporting and compliance.

Deborah V. Loveless

See accompanying Notes to the Financial Statements.

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. **Reporting Entity -** The Risk Management Fund (RMF) is part of the primary government and has been included in the *Tennessee Comprehensive Annual Financial Report* as an internal service fund.

2. **Measurement Focus and Basis of Accounting -** The accompanying financial statements have been prepared in accordance with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB). The financial statements have been prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of the related cash flows. The RMF distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from the services provided by the RMF. The principal operating revenue of the RMF consists of charges to its customers for insurance premiums. Operating expenses include claims expenses, insurance premiums, administrative expenses and the current charge to the accrued liability. Revenues and expenses not resulting from the services provided by the RMF are reported as nonoperating revenues and expenses.

3. **Cash -** The Risk Management Fund does not maintain its own bank accounts but utilizes the State Pooled Investment Fund for its operating cash needs. The State Pooled Investment Fund is authorized by state statute to invest funds in accordance with policy guidelines approved by the Funding Board of the State of Tennessee. The current resolution of that board gives the Treasurer authority to invest in collateralized certificates of deposit in authorized state depositories, prime commercial paper, prime bankers' acceptances, certain repurchase agreements, and various U.S. Treasury and Agency obligations. The State Pooled Investment Fund is also authorized to enter into securities lending agreements in which U.S. Government Securities may be loaned for a fee. The loaned securities are transferred to the borrower by the custodial agent upon simultaneous receipt of collateral securities. The State Pooled Investment Fund is not rated by a nationally recognized ratings agency. The investment policy and required risk disclosures relative to the State Pooled Investment Fund are presented on pages 114-121 of this report.

B. OTHER ACCOUNTING DISCLOSURES

1. **Risk Management -** It is the policy of the state not to purchase commercial insurance for the risks associated with casualty losses for general liability, automobile liability, professional medical malpractice liability, and workers' compensation. By statute, the maximum liability for general liability, automobile liability, and medical malpractice liability is $300,000 per person and $1 million per occurrence. The state's management believes it is more economical to manage these risks internally and set aside assets for claim settlement in its internal service fund, the RMF. The state purchases commercial insurance for real property, builder's risk (for construction projects starting prior to July 1, 2012) and crime and fidelity coverage on the state's officials and employees. The contractor is responsible for acquiring builder's risk insurance for all construction projects after June 30, 2012, thus builder's risk is no longer covered by the RMF. For property coverage, the deductible for an individual state agency is the first $25,000 of losses. The RMF is responsible for property losses for the annual aggregate deductible of $10 million for perils other than earthquake and flood. Purchased insurance coverage is responsible for losses exceeding the $10 million annual aggregate deductible. For earthquake and flood, there is a deductible of $10 million per occurrence. The maximum insurance coverage is $750 million per year for perils other than earthquake and flood. The maximum flood insurance coverage is $50 million per occurrence, except there is only $25 million of coverage in flood zones A and V. The maximum earthquake insurance coverage is $50 million per occurrence. Settled claims resulting from these risks have not exceeded maximum commercial insurance coverage in any of the past three fiscal years. All agencies and authorities of the state participate in the RMF, except for the Dairy Promotion Board and the Certified Cotton Growers' Organization. The Tennessee Education Lottery Corporation participates in the RMF for general liability purposes but is responsible for its own worker's compensation coverage.

(CONTINUED)

The RMF liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. Claims liabilities are reevaluated annually to take into consideration recently settled claims, the frequency of claims, and other economic and social factors.

The present value of the casualty liability as actuarially determined was $140,117,000 (discounted at 1.0%) at June 30, 2015 and $136,844,000 (discounted at 1.0%) at June 30, 2014**.** During fiscal year 2014, the State determined to change the methodology for reserving workers compensation claims to a model more closely aligned to industry standards. The conversion of outstanding claims to the new methodology resulted in a substantially higher accrued liability for casualty losses than was seen in prior years. The accrued liability for incurred property losses was $3,575,452.30 at June 30, 2015 and $5,701,233 at June 30, 2014. The changes in the balances of the claims liabilities during fiscal years 2014 and 2015 were as follows:

Fiscal Year	Beginning Claims Liability	Current Year Claims and Changes in Estimates	Claim Payments	Ending Claims Liability
2015	$142,545,233	$48,903,672	($47,756,453)	$ 143,692,452
2014	96,403,133	83,017,087	(36,874,987)	142,545,233

The RMF held $127.9 million in cash at June 30, 2015 and $116.3 million in cash at June 30, 2014 that is designated for payment of these claims.

The RMF allocates the cost of providing claims servicing and claims payment by charging a premium to each agency based on a percentage of each organization's expected loss costs which include both experience and exposures. This charge considers recent trends in actual claims experience of the state as a whole.

2. **Receivable -** The receivables shown on the Statement of Net Position as due from federal government include funds to be received from the Federal Emergency Management Agency for property losses that were classified as a disaster. Current Receivables include claims for losses expected to be collected within 12 months.

3. **Insurance Proceeds -** The State receives property insurance proceeds from our commercial insurance carriers in excess of our deductible for losses. Current estimated property losses at June 30, 2015 were $25,640,907 while estimated proceeds from commercial insurance carriers above our deductible were $22,356,800 which includes the balance at June 30, 2015 of $291,346 of insurance proceeds on hand for the payment of claims. This results in a $3,284,107 liability for property losses to be established at June 30, 2015.

4. **Transfer to General Fund -** The RMF received a $3,200,000 transfer in from the general fund as part of a one-time appropriation in fiscal year 2015 to help reduce the fund deficit caused by the change in reserving methodology in fiscal year 2014. This is a non-recurring, miscellaneous appropriation.

Members of the State Funding Board
The Honorable David H. Lillard, Jr., Treasurer

Report on the Financial Statements

We have audited the accompanying statements of fiduciary net position of the State Pooled Investment Fund as of June 30, 2015, and June 30, 2014, the related statements of changes in fiduciary net position for the years then ended, and the related notes to the financial statements, which collectively comprise the State Pooled Investment Fund's basic financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

(CONTINUED)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion. Tennessee statutes, in addition to audit responsibilities, entrust certain other responsibilities to the Comptroller of the Treasury. Those responsibilities include serving as a member of the State Funding Board. We do not believe that the Comptroller's service in this capacity affected our ability to conduct an independent audit of the State Pooled Investment Fund.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position of the State Pooled Investment Fund of the State of Tennessee as of June 30, 2015, and June 30, 2014, and the changes in fiduciary net position thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note A.1., the financial statements present only the State Pooled Investment Fund of the State of Tennessee, and do not purport to, and do not, present fairly the financial position of the State of Tennessee as of June 30, 2015, and June 30, 2014, and the changes in its financial position for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2015, on our consideration of the State Pooled Investment Fund's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, and contracts and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State Pooled Investment Fund's internal control over financial reporting and compliance.

NET POSITION, END OF YEAR	$ 9,224,975,953	$ 8,406,398,815

See accompanying Notes to the Financial Statements.

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. **Reporting Entity** - The State Pooled Investment Fund (SPIF) is an external investment pool sponsored by the State of Tennessee. The external portion of the State Pooled Investment Fund, consisting of funds belonging to entities outside of the State of Tennessee Financial Reporting Entity, has been included as a separate investment trust fund in the *Tennessee Comprehensive Annual Financial Report*. The internal portion, consisting of funds belonging to the State and its component units, has been included in the various participating funds and component units in the *Tennessee Comprehensive Annual Financial Report*.

2. **Measurement Focus and Basis of Accounting** - The accompanying financial statements have been prepared in accordance with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB) using the economic resources measurement focus and the accrual basis of accounting. Under this basis, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash flows.

3. **Cash and Cash Equivalents** - This classification includes deposits in demand accounts as well as short-term investments with a maturity date within three months of the date acquired by the State.

4. **Method Used to Report Investments and Participant Shares** - The SPIF is not registered with the Securities and Exchange Commission (SEC) as an investment company but, through its investment policy adopted by the Funding Board of the State of Tennessee (Funding Board), operates in a manner consistent with the SEC's Rule 2a7 of the *Investment Company Act of 1940*. Rule 2a7 allows SEC registered mutual funds to use amortized cost to report net assets in computing share prices. Likewise, the SPIF uses amortized cost accounting measures to report investments and share prices. During the fiscal years ended June 30, 2015 and June 30, 2014, the State had not obtained or provided any legally binding guarantees to support the value of participant shares. The State of Tennessee has not obtained a credit quality rating for the SPIF from a nationally recognized credit ratings agency.

B. DEPOSITS AND INVESTMENTS

The State Pooled Investment Fund is authorized by statute to invest funds in accordance with policy guidelines approved by the Funding Board. The current resolution of the Funding Board gives the Treasurer approval to invest in collateralized certificates of deposit in authorized state depositories, prime commercial paper, prime bankers' acceptances, bonds, notes, and treasury bills of the United States or other obligations guaranteed as to principal and interest by the United States or any of its agencies, repurchase agreements for obligations of the United States or its agencies, and securities lending agreements whereby securities may be loaned for a fee. Investments in derivative type securities and investments of high risk are prohibited.

At June 30, 2015 and June 30, 2014, the principal amount of certificates of deposit in state depositories was $1,106,035,000 and $880,480,000 respectively. Interest rates on certificates of deposit held at June 30, 2015 ranged from 0.10% to .22% and at June 30, 2014 ranged from 0.10% to 0.30%. The days to maturity on certificates of deposit ranged from 7 to 365 days at both June 30, 2015 and June 30, 2014.

As of June 30, 2015 and June 30, 2014, the SPIF had the following investments:

Short-term investments as shown on Statement of Fiduciary Net Position	$5,828,165,563					

(CONTINUED)

Credit Risk - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Credit quality ratings for the SPIF's investments in debt securities as of June 30, 2015 and June 30, 2014 are included in the above schedule. Securities are rated using Standard and Poor's and/or Moody's and are presented above using the Standard and Poor's rating scale. State statutes provide a process for financial institutions desiring to act as state depositories to be approved by the State Treasurer. Statutes also provide for the Commissioner of Financial Institutions to advise, on a timely basis, the Treasurer and the Commissioner of Finance and Administration of the condition of each state bank and state chartered savings and loan association, including his recommendations regarding its condition and safety as a state depository. Similar provisions apply to federally chartered banks and savings and loan associations designated as state depositories. This process ensures that institutions whose financial status is uncertain are monitored for collateral sufficiency. All state funds are required to be deposited with a financial institution that has been designated as a state depository. Statutes require that state deposits be secured by collateral securities with a market value of 105% of the face of the deposit secured thereby after considering the applicable FDIC coverage, or the depository must be a member of the State Collateral Pool and the pool must have securities pledged which in total equal the required percentage established by the Collateral Pool Board. All certificates of deposit are also required by policy to be placed directly with state depositories. All repurchase agreements are done with primary dealers in government securities which have executed a master repurchase agreement with the State. The SPIF's investment policy requires a AAA credit quality rating for the purchase of obligations of instrumentalities that are not fully guaranteed by the United States government. Prime banker's acceptances must be issued by domestic banks with a minimum AA long-term debt rating or foreign banks with a AAA long-term debt rating by a majority of the rating services that have rated the issuer. The short-term debt rating must be at least A1 or the equivalent by all of the rating services that rate the issuer. Commercial paper should be rated in the highest tier by all rating agencies that rate the paper. Commercial paper on a credit rating agency's negative credit watch list cannot be purchased under the investment policy. The policy requires that a credit analysis report on the corporation be prepared prior to acquisition of the commercial paper.

(1) Includes obligations of the U. S. government or obligations explicitly guaranteed by the U. S. government.

(2) Includes securities that are implicitly guaranteed by the U.S. government, but are not rated by Standard and Poor's or Moody's.

(3) A1 is the highest rating category for commercial paper.

(CONTINUED)

Concentration of Credit Risk - A concentration of investments in any one single issuer of debt securities presents a greater risk for loss in the event that the issuer fails on its obligations. An objective stated in the SPIF's investment policy is that the investment portfolio will be diversified to avoid incurring unreasonable and avoidable risks regarding specific security types or individual financial institutions. Acquisitions are monitored by policy to assure that no more than twenty percent (20%) of the book value of the pool, at the date of acquisition, is invested in a single United States government agency security and that such acquisition does not cause the SPIF's aggregate United States government agency holdings to exceed fifty percent (50%) of the total book value of the pool on such date. In addition, the SPIF's investment policy limits the book value of prime banker's acceptances to five percent (5%) of the total book value of the pool and limits such investments in any one commercial bank to the lesser of five percent (5%) of the portfolio's book value or $25 million. Prime commercial paper investments are limited to five percent (5%) of the total portfolio book value invested in any one single issuing corporation and the total holdings of an issuer's paper should not represent more than five percent (5%) of the issuing corporation's total outstanding commercial paper, with the maximum amount of a specific corporation's commercial paper limited to $100 million, not including commercial paper maturing on the next business day. Prime commercial paper shall not exceed forty percent (40%) of the total pool's book value. The SPIF had the following investment amounts and percentages of total investments, in organizations representing five percent (5%) or more of total investments, excluding those organizations whose issues are explicitly guaranteed by the United States government, and investments in mutual funds, external investment pools, and other pooled investments:

June 30,2015		
Issuer Organization	Carrying Amount	Percentage of Total Investments
Federal Home Loan Banks	$ 1,508,842,384	19.45%
Federal Home Loan Mortgage Corporation	857,128,941	11.05%
International Bank for Reconstruction and Development	814,985,669	10.51%
Federal Farm Credit Banks	745,288,102	9.61%
Federal National Mortgage Association	653,593,191	8.43%

June 30,2014		
Issuer Organization	Carrying Amount	Percentage of Total Investments
Federal Home Loan Banks	$ 1,278,947,422	18.46%
Federal National Mortgage Association	1,255,719,421	18.13%
Federal Farm Credit Banks	828,835,052	11.96%
Federal Home Loan Mortgage Corporation	500,731,985	7.23%

(CONTINUED)

Interest Rate Risk - Interest rate risk is the risk that future changes in prevailing market rates of interest will have an adverse effect on the fair value of debt investments. The fair values of securities with long terms to maturity may be highly sensitive to interest rate changes. The SPIF's investment policy with respect to maturity states that the dollar weighted average maturity of the pool shall not exceed one hundred twenty (120) days and that no investment may be purchased with a remaining maturity of greater than three hundred ninety seven (397) calendar days. At June 30, 2015, the weighted average maturity of the pool was one hundred ten (110) days. At June 30, 2014, the weighted average maturity of the pool was one hundred nine (109) days. It is the intent of the Funding Board that the fair value of the SPIF not deviate more than one-half percent (0.5%) from amortized cost. If it does, actions may include, but not be limited to, selling securities whose fair value substantially deviates from amortized cost, and investing in securities with ninety (90) days or less to maturity. Agency variable rate notes are permitted by investment policy provided they are indexed to treasury bill, commercial paper, federal funds, LIBOR or the prime rates. It is the intent of the Funding Board that variable rate notes must move in the same direction as general money market rates. Prime banker's acceptances must have an original maturity of not more than two hundred seventy (270) days to be eligible for purchase, with the intent to hold to maturity. Prime commercial paper shall not have a maturity that exceeds one hundred eighty (180) days, and individual repurchase agreement transactions shall not have a maturity that exceeds ninety (90) days.

As of June 30, 2015 and June 30, 2014, the SPIF portfolio had the following weighted average maturities on debt investments:

June 30, 2015		
Investment Type	**Carrying Amount**	**Weighted Average Maturity (Months)**
U.S. Government Agencies	$4,579,838,286	3.12
U.S. Government Treasuries	2,425,611,283	5.89
Commercial Paper	749,982,688	0.26
Total Debt Investments	$7,755,432,257	3.71
Total SPIF Portfolio	$9,290,690,706	3.67

June 30, 2014		
Investment Type	**Carrying Amount**	**Weighted Average Maturity (Months)**
U.S. Government Agencies	$4,114,227,373	4.25
U.S. Government Treasuries	2,213,470,463	3.87
Commercial Paper	599,977,053	0.65
Total Debt Investments	$6,927,674,889	3.82
Total SPIF Portfolio	$8,453,638,610	3.63

(CONTINUED)

C. OTHER ACCOUNTING DISCLOSURES

Description of the State Pooled Investment Fund - The State Pooled Investment Fund is established by *Tennessee Code Annotated*, Section 9-4-603 "for the purpose of receiving and investing any money in the custody of any officer or officers of the state unless prohibited by statute to be invested." Participants in the SPIF include the general fund of the State and any department or agency of the State which is required by court order, contract, state or federal law or federal regulation to receive interest on invested funds and which are authorized by the State Treasurer to participate in the SPIF. In addition, funds in the State of Tennessee Local Government Investment Pool (LGIP) are consolidated with the SPIF for investment purposes only. The SPIF, as noted in A.4 above, is not registered as an investment company with the SEC. The primary oversight responsibility for the investment and operations of the SPIF rests with the Funding Board.

Investment in the SPIF by local governments and certain state agencies is optional and participants may invest any amount for any length of time in the SPIF. However, some deposits made to the LGIP are contractually required and committed to the State Department of Transportation (DOT). The only withdrawals allowed from these accounts are to pay the DOT in accordance with progress billings for construction projects contracted between the entity and the DOT.

An average rate of return is calculated on the investments made each month in the SPIF and is used to credit earnings to LGIP participants and the State departments and agencies required to earn interest. The State's general fund is credited with the residual earnings. Accordingly, participants' shares are sold and redeemed at a value equal to the amount of the principal plus accrued earnings while investments are reported at amortized cost. For the fiscal years ending June 30, 2015 and June 30, 2014, an administrative fee of .05 percent was charged against each participant's average daily balance to provide funding for administrative expenses to operate the SPIF.

FAX (615) 532-2765

Members of the General Assembly
Members of the Board of Trustees
The Honorable David H. Lillard, Jr., Treasurer

Report on the Financial Statements

We have audited the accompanying statement of fiduciary net position of the Tennessee Consolidated Retirement System, pension trust funds of the State of Tennessee, as of and for the year ended June 30, 2015, the related statement of changes in fiduciary net position for the year then ended, and the related notes to the financial statements, which collectively comprise the Tennessee Consolidated Retirement System's basic financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

(CONTINUED)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion. Tennessee statutes, in addition to audit responsibilities, entrust certain other responsibilities to the Comptroller of the Treasury. Those responsibilities include serving as a member of the board of trustees of the Tennessee Consolidated Retirement System. We do not believe that the Comptroller's service in this capacity affected our ability to conduct an independent audit of the Tennessee Consolidated Retirement System.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position of the Tennessee Consolidated Retirement System as of June 30, 2015, and the changes in fiduciary net position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matters

As discussed in Note A, the financial statements present only the Tennessee Consolidated Retirement System, pension trust funds, and do not purport to, and do not, present fairly the financial position of the State of Tennessee as of June 30, 2015, and the changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

As discussed in Note C, the financial statements of the Tennessee Consolidated Retirement System include investments valued at $4,683,390,636 (11.08 percent of net position) whose fair values have been estimated by management in the absence of readily determinable fair values. Management's estimates are based on information provided by the fund managers or the general partners. Our opinion is not modified with respect to this matter.

Other Matter - Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, schedule of changes in net pension liability, schedule of net pension liability, schedule of investment returns, and schedule of pension plan contributions, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 23, 2015, on our consideration of the Tennessee Consolidated Retirement System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and other matters. The purpose of that report is to

(CONTINUED)

describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Tennessee Consolidated Retirement System's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management of the Tennessee Consolidated Retirement System (TCRS) provides this discussion and analysis as an overview of the TCRS' financial activities for the fiscal year ended June 30, 2015. This section should be read in conjunction with the Independent Auditor's Report, the audited financial statements, and the accompanying notes.

FINANCIAL HIGHLIGHTS

- The net position for the TCRS plans (total assets minus total liabilities) at June 30, 2015 was $43.2 billion, increasing $0.3 billion (0.8 percent) from the plan net position at June 30, 2014. The net position is restricted for future benefit obligations. This increase in plan net position is mainly attributable to net investment income. Returns were led by strong returns of 20.5 percent for private equity and 12.8 percent for real estate.

- Net investment income for fiscal year 2015 was $1.3 billion. During fiscal year 2015, the TCRS received a time-weighted rate of return on its portfolio of 3.3 percent, compared to 16.7 percent for fiscal year 2014.

- Based on the latest actuarial valuation as of June 30, 2014 for accounting purposes pursuant to GASB 67 & 68, the overall funded ratio for all participating employers within TCRS is 98.8 percent.

- Contribution revenue for fiscal year 2015 totaled $1.29 billion, representing a decrease of 1.4 percent compared to fiscal year 2014. Effective July 1, 2014 a new retirement plan was established for newly hired state employees and teachers. The new retirement plan consists of a defined benefit component and a defined contribution component. The defined benefit component has a lower benefit structure than the previous defined benefit plan; as a result fewer contributions are required.

- Total benefits and refunds paid for fiscal year 2015 were $2.24 billion, representing an increase of 6.1 percent over fiscal year 2014 total benefits and refunds paid of $2.11 billion. The growth is primarily due to the retiring members' benefits exceeding the benefits of long-term retired members whose benefits ceased due to death. Additionally, a 1.5 percent cost of living adjustment was given in July 2014.

- Total administrative expenses for fiscal year 2015 were $15.06 million, representing an increase of 51.3 percent from fiscal year 2014 administrative expenses of $9.96 million. Administrative expenses represent three basis points (three one-hundredths of one percent) of the average of the beginning and ending net position.

OVERVIEW OF THE FINANCIAL STATEMENTS

The TCRS financial statements consist of the *Statement of Fiduciary Net Position*, the *Statement of Changes in Fiduciary Net Position*, and the *Notes to the Financial Statements*. In addition, *Required Supplementary Information* and the *Notes to the Required Supplementary Information* are presented, which includes this *Management's Discussion and Analysis*. These financial statements, notes to the financial statements and required supplementary information were prepared in conformity with GASB Statement No. 67, Financial Reporting for Pensions Plans. Collectively, this information presents the combined net position held in trust for pensions for each of the plans administered by TCRS as of June 30, 2015.

The *Statement of Fiduciary Net Position* and the *Statement of Changes in Fiduciary Net Position* report information about the fiduciary net position (total assets in excess of total liabilities) as of the end of the fiscal year and the

(CONTINUED)

changes in the fiduciary net position during the fiscal year. These statements include all assets and liabilities using the accrual basis of accounting. Under the accrual basis of accounting, the current year's revenues and expenses are included in the financial activity, regardless of when cash is received or paid. The difference between the total assets and total liabilities on the *Statement of Fiduciary Net Position*, or net position restricted for pensions, provides a measurement of the financial position of the TCRS as of the end of the fiscal year. The *Statement of Changes in Fiduciary Net Position* provides information on the activities that caused the financial position to change during the fiscal year. Over time, increases or decreases in the fiduciary net position of the TCRS are one indicator of whether the system's financial health is improving or deteriorating.

The Notes to the Financial Statements are essential to the reader's understanding of the financial statements and provide additional information regarding the TCRS, such as descriptions of the plans administered by the TCRS, including contribution and benefit provisions, and information about the accounting policies and investment activities.

ANALYSIS OF ASSETS, LIABILITIES AND PLAN NET POSITION

At June 30, 2015, the TCRS had a net position (total assets in excess of total liabilities) of $43.2 billion, an increase of $0.3 billion (0.8 percent) from $42.9 billion at June 30, 2014. The assets of the TCRS consist primarily of investments. The increase in plan assets is primarily the result of investment return for the year since contributions decreased 1.4 percent from June 30, 2014. Condensed financial information comparing the TCRS' fiduciary net position for the past two fiscal years follows:

FIDUCIARY NET POSITION

	June 30, 2015	June 30, 2014	Increase (Decrease) Amount	Percentage Change
ASSETS				
Cash and cash equivalents	$ 445,811,146	$ 279,661,206	$ 166,149,940	59.4 %

(CONTINUED)

ANALYSIS OF REVENUES AND EXPENSES

Employer contribution rates for the TCRS did not change during fiscal year 2015; therefore, the 1.4 percent decrease in contributions from fiscal year 2014 to fiscal year 2015 was due to the transition of new employees to hybrid pension plans. Gross investment income for fiscal year 2015 decreased $4.8 billion (78.0 percent) over fiscal year 2014.

Investment expenses for fiscal year 2015 totaled $54.5 million for a 26.3 percent increase over fiscal year 2014. These expenses were split between portfolio management investment expenses of $46.7 million and $7.8 million in expenses attributed to the securities lending program that was initiated during the latter part of the 2014 fiscal year. The TCRS investment portfolio earned a time-weighted rate of return of 3.3 percent and net investment income of $1.3 billion.

Total benefits paid during the year ended June 30, 2015 were $2.2 billion, an increase of 6.1 percent over fiscal year 2014 total benefits which can be attributed to an increase in the number of retirees and a 1.5% cost of living adjustment given in July 2014. Total refunds paid decreased $6.1 million, a decrease of 11.3%, in fiscal year 2015 from fiscal year 2014. This was attributed to the change in structure of two large employers in 2014 where the members of these employers chose to withdraw their funds when they were not rehired by the new employer.

Administrative expenses for the year ended June 30, 2015 were $15.1 million, an increase of 51.3 percent from fiscal year 2014 administrative expenses. The increase was primarily due to the new pension administration system being implemented in the July 2015 resulting in the amortization expense of the software development costs of $3.7 million for the year, an increase of $2.5 million over fiscal year 2014. Software development costs are capitalized and amortized over the ten year expected life of this capital asset. Additionally, Information Technology and Data Processing costs increased by $2.0 million during the systems' first full fiscal year of operations which included a maintenance phase with the pension administration system consultants.

ECONOMIC FACTORS, FUTURE FUNDING PROVISIONS, OVERALL OUTLOOK

For the year ended June 30, 2015 the portfolio delivered a return of 3.3 percent which was below the actuarial assumed return of 7.5 percent. The fund gained 9.8 percent for the trailing three year period which exceeded the actuarially required return by over 2.3 percent annually. Additionally, the fund generated more return for unit of risk employed than 84 percent of peers for the trailing five-year period.

Private equities and real estate generated strong returns of 20.5 percent and 12.8 percent, respectively, while Canadian and emerging markets stocks lost 14.1 percent and 11.9 percent, respectively. U.S. stocks generated 7.9 percent and U.S. bonds delivered 2.8 percent.

The investment environment in 2015 was characterized by a strengthening dollar and weakening commodity prices which led to generally poor returns from international and commodity-based assets. Yields fell slightly during the year, but the volatility of rates was pronounced with a sharp fall in yields through the first part of the year followed by a similar rise near the end of the year as investors began to anticipate the Federal Reserve tightening cycle.

An actuarial valuation was performed as of July 1, 2013 that determined the employer contribution rates for the period July 1, 2014 through June 30, 2016. An actuarial experience study to establish demographic and economic assumptions was completed effective June 30, 2012, was adopted by the Board of Trustees during fiscal year 2013, and was utilized in the July 1, 2013 actuarial valuation. Annual actuarial valuations will begin in July 2015.

In December 2010, TCRS contracted with Deloitte Consulting, LLC, to provide a new pension administration system to replace the retirement information system. The new pension administration system, referred to as Concord, replaced five separate operating systems with one integrated web-based system that will greatly improve the level of service we provide to our members and employers. The final phase of Concord was implemented in July 2014. Software development costs have been capitalized and are being amortized over the useful life of the system.

During the 2013 legislative session, a new pension plan for state employees, higher education and K-12 public school teachers hired on or after June 30, 2014 was enacted into law. Members and retirees currently enrolled in TCRS will remain in the legacy plan. The new hybrid plan contains elements of a defined benefit plan and a defined contribution plan. The goals of the new plan were to provide a sufficient retirement benefit to members, a long term sustainable pension plan, and an affordable plan to employers. The new plan contains provisions to control employer cost and unfunded liability. New members were enrolled in the plan beginning July 1, 2014.

CONTACTING THE TCRS

This report is designed to provide a financial overview of the TCRS to state legislators, members of the Board of Trustees of the TCRS, state officials, participating employers, members of the TCRS and any other interested parties. Questions or requests for additional information regarding the financial information presented in this report may be addressed in writing to the Tennessee Treasury Department, Consolidated Retirement System, 502 Deaderick Street, Nashville, TN 37243-0201.

See accompanying Notes to the Financial Statements.

The Tennessee Consolidated Retirement System (TCRS) is a public employee retirement system comprised of defined benefit pension plans covering Tennessee state employees, employees of the state's higher education systems, teachers, and employees of political subdivisions in Tennessee. The TCRS was established in 1972 by a statutory enactment of the Tennessee General Assembly. The provisions of the TCRS are codified in Tennessee Code Annotated Title 8, Chapters 34-37. In accordance with Tennessee Code Annotated Title 8, Chapter 34, Section 202, all funds invested, securities, cash, and other property of the TCRS are held in trust and can be expended only for the purposes of the trust. Although the assets for all pension plans within the TCRS are commingled for investment purposes, the assets of each separate plan may legally be used only for the payment of benefits to the members of that plan and for its administration, in accordance with the terms of the plan.

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. **Reporting Entity -** The TCRS is included in the State of Tennessee financial reporting entity. Because of the state's fiduciary responsibility, the TCRS has been included as a pension trust fund in the Tennessee Comprehensive Annual Financial Report.

2. **Measurement Focus and Basis of Accounting -** The accompanying financial statements have been prepared in accordance with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). The financial statements have been prepared using the flow of economic resources measurement focus and the accrual basis of accounting. Under the accrual method, revenues are recorded when earned, and expenses are recorded at the time liabilities are incurred regardless of the timing of related cash flows.

   Plan member and employer contributions are recognized in the period of time for which they are due, in accordance with legal provisions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

3. **Cash and Cash Equivalents -** Cash and cash equivalents includes cash, short-term investments with a maturity date within three months of the acquisition date, cash management pools, and cash invested in a short-term, open-end mutual fund under the contractual arrangement for master custody services. Cash received by the TCRS, that cannot be invested immediately in securities or is needed for operations, is invested in the State Pooled Investment Fund sponsored by the State of Tennessee and administered by the State Treasurer.

4. **Method Used to Value Investments -** Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. The fair value of real estate investments is determined at least every three years by qualified, independent appraisers who are members of the Appraisal Institute. In those years independent appraisals are not conducted, appraisals are completed internally by real estate advisors. The fair value of private equity investments is determined by the fund managers using various methodologies, as applicable under GAAP. In many cases, these valuations are additionally reviewed by advisory boards comprised of a subgroup of the fund's investors. These valuations are audited on an annual basis by independent accounting firms engaged by the private equity fund managers. Investment income includes realized and unrealized appreciation (depreciation) in the fair value of investments. Interest income is recognized when earned. Securities and securities transactions are recorded in the financial statements on trade-date basis. Real estate transactions are recorded in the financial statements at the time of closing.

5. **Capital Assets -** Capital assets consist of internally generated computer software, reported at historical cost less any applicable amortization. Capital assets are defined by the state as assets with an initial individual cost of $5,000 or more and an estimated useful life in excess of two years. The computer software was valued at $31.7 million at year end and is being amortized using the straight line method over the ten year estimated life of the system. The amortization expense for the current year was $3.7 million.

(CONTINUED)

B. PLAN DESCRIPTIONS

Plan Administration - The Tennessee Treasury Department, an agency in the legislative branch of state government, administers the plans of the TCRS.

At June 30, 2015, there were three defined benefit pension plans within the TCRS. The Public Employee Retirement Plan is an agent, multiple-employer defined benefit pension plan for state government employees and for political subdivisions electing to participate in the TCRS. The Teacher Legacy Pension Plan is a cost-sharing, multiple-employer defined benefit pension plan for teachers of local education agencies (LEAs). The Teacher Legacy Pension Plan closed to new membership on June 30, 2014, but will continue providing benefits to existing members and retirees. Beginning July 1, 2014, the Teacher Retirement Plan became effective for teachers employed by LEAs after June 30, 2014. The Teacher Retirement Plan is a separate cost sharing, multiple employer defined benefit pension plan.

The general administration and responsibility for proper operation of the TCRS plans are vested in a 20 member Board of Trustees, consisting of 18 voting members and two non-voting members. The Board has nine ex-officio members, two of whom are non-voting. The seven voting ex-officio members are the State Treasurer, Secretary of State, Comptroller of the Treasury, Commissioner of Finance and Administration, Commissioner of Human Resources, Director of the TCRS, and the Administrative Director of the Courts. The two non-voting ex-officio members are the chair and vice-chair of the Legislative Council on Pensions and Insurance.

Three active teacher members, one from each grand division of the state, and a retired teacher member are selected for three year terms by the Speaker of the House of Representatives and the Speaker of the Senate. Two active state employee members, who are from departments other than those represented by ex-officio members, are elected by state employees for three year terms. A board member is appointed for a two year term by each of the following organizations: Tennessee County Services, Tennessee Municipal League, and the Tennessee County Officials Association. Two members, a public safety employee and a retired state employee, are appointed by the Governor for two year terms. All members must be vested members of the TCRS, except for ex-officio members.

Plan Membership - At June 30, 2015 the membership of the pension plans consisted of the following:

	Public Employee Retirement Plan	Teacher Retirement Plan	Teacher Legacy Pension Plan	Total
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	91,683	0	47,292	138,975
Inactive Vested Plan Members Entitled to But Not Yet Receiving Benefits	32,989	3	8,000	40,992
Inactive Non-Vested Plan Members Entitled to Refund of Member Account Balance	30,015	523	18,341	48,879
Active Plan Members	138,267	5,516	69,140	212,923
Total Membership	292,954	6,042	142,773	441,769
Number of Participating Employers	545	142	142	687

Membership above includes all plans whether open or closed.

(CONTINUED)

Benefits Provided - The TCRS provides retirement, disability, and death benefits. The benefits of the TCRS are established by state law (Tennessee Code Annotated, Title 8, Chapters 34-37). In general, the benefits may be amended prospectively by the General Assembly for employees becoming members of the TCRS after June 30, 2014. Amendments of benefits for employees becoming members before July 1, 2014 can be restricted by precedent established by the Tennessee Supreme Court.

Teacher Legacy Pension Plan

Members of the Teacher Legacy Pension Plan are eligible to retire at age 60 with five years of service credit or after 30 years of service credit regardless of age. Plan members are entitled to receive unreduced service retirement benefits, which are determined by a formula using the member's highest five consecutive year average compensation and the member's years of service credit. Service related disability benefits are provided regardless of length of service. Five years of service is required for non-service related disability eligibility. The service related and non-service related disability benefits are determined in the same manner as a service retirement benefit but are reduced ten percent (10 percent) and include projected service credits. A variety of death benefits are available under various eligibility criteria. Member and beneficiary annuitants are entitled to automatic cost of living adjustments (COLAs) after retirement. A COLA is granted each July for annuitants retired prior to the 2nd of July of the previous year. The COLA is based on the change in the consumer price index (CPI) during the prior calendar year, capped at three percent (3 percent), and applied to the current benefit. No COLA is granted if the change in the CPI is less than one-half percent. A one percent (1 percent) COLA is granted if the CPI change is between one-half percent and one percent.

Teacher Retirement Plan

Members of the Teacher Retirement Plan are eligible to retire at age 65 with five years of service credit or pursuant to the rule of 90 where age and years of service total 90. Plan members are entitled to receive unreduced service retirement benefits, which are determined by a formula using the member's highest five consecutive year average compensation and the member's years of service credit. Service related disability benefits are provided regardless of length of service. Five years of service is required for non-service related disability eligibility. The service related and non-service related disability benefits are determined in the same manner as a service retirement benefit but are reduced ten percent (10 percent) and include projected service credits. A variety of death benefits are available under various eligibility criteria. Member and beneficiary annuitants are entitled to automatic cost of living adjustments (COLAs) after retirement. A COLA is granted each July for annuitants retired prior to the 2nd of July of the previous year. The COLA is based on the change in the consumer price index (CPI) during the prior calendar year, capped at three percent (3 percent), and applied to the current benefit. No COLA is granted if the change in the CPI is less than one-half percent. A one percent (1 percent) COLA is granted if the CPI change is between one-half percent and one percent. The Teacher Retirement Plan includes provisions to control employer contributions and unfunded liabilities. As such, plan provisions are automatically changed when employer contributions and unfunded liabilities exceed statutory limits.

Public Employee Retirement Plan

For state employees, there are two major tiers of benefits and eligibility requirements. State employees becoming members before July 1, 2014 are eligible to retire at age 60 with five years of service credit or after 30 years of service credit regardless of age. State employees becoming members after June 30, 2014 are eligible to retire at age 65 with five years of service or pursuant to the rule of 90 where age and years of service total 90. Plan members are entitled to receive unreduced service retirement benefits, which are determined by a formula using the member's highest five consecutive year average compensation and the member's years of service credit. Service related disability benefits are provided regardless of length of service. Five years of service is required for non-service related disability eligibility. The service related and non-service related disability benefits are determined

(CONTINUED)

in the same manner as a service retirement benefit but are reduced ten percent (10 percent) and include projected service credits. A variety of death benefits are available under various eligibility criteria. Member and beneficiary annuitants are entitled to automatic COLAs after retirement. A COLA is granted each July for annuitants retired prior to the 2nd of July of the previous year. The COLA is based on the change in the CPI during the prior calendar year, capped at three percent (3 percent), and applied to the current benefit. No COLA is granted if the change in the CPI is less than one-half percent. A one percent (1 percent) COLA is granted if the CPI change is between one-half percent and one percent. There are additional classes of employees that include state judges, elected members of the general assembly, and public safety officers which have different benefit structures and eligibility requirements. These classifications represent an immaterial percentage of the state employee membership.

For political subdivision employees, there are various tiers of benefits and eligibility requirements. Each political subdivision adopts the benefit structure that the entity provides to its employees. Unreduced service retirement benefits are determined using a multiplier of the member's highest five consecutive year average compensation multiplied by the member's years of service credit. Plan members are eligible for service related disability benefits regardless of length of service. Five years of service is required for non-service related disability eligibility. The service related and non-service related disability benefits are determined in the same manner as a service retirement benefit but are reduced ten percent (10 percent) and include projected service credits. A variety of death benefits are available under various eligibility criteria. If adopted as a benefit provision by the political subdivision, member and beneficiary annuitants are entitled to automatic COLAs after retirement. A COLA is granted each July for annuitants retired prior to the 2nd of July of the previous year. The COLA is based on the change in the CPI during the prior calendar year, capped at three percent (3 percent), and applied to the current benefit. No COLA is granted if the change in the CPI is less than one-half percent. A one percent (1 percent) COLA is granted if the CPI change is between one-half percent and one percent. There are additional classes of employees, local judges, elected officials, and public safety officers, which may have different benefit structures and eligibility requirements. These classifications represent an immaterial percentage of the political subdivisions' membership.

Contributions - Pursuant to Tennessee Code Annotated Title 8, Chapter 37, the Board of Trustees adopted an actuarially determined contribution (ADC) for each participating employer, as recommended by an independent actuary following an actuarial valuation.

For the Teacher Legacy Pension Plan, LEAs are required by statute to contribute the ADC. The ADC is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, the unfunded accrued liability, and the cost of administration. Teachers are required by statute to contribute five percent (5 percent) of salary. For the year ended June 30, 2015, the required ADC for LEAs was 9.04 percent of covered-employee payroll.

For the Teacher Retirement Plan, LEAs are required by statute to contribute greater of the ADC or four percent (4 percent). The ADC is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, the unfunded accrued liability, and the cost of administration. Teachers are required by statute to contribute five percent (5 percent) of salary. For the year ended June 30, 2015, the required ADC for LEAs was two and one-half percent (2.5 percent) of covered-employee payroll while actual contributions were four percent (4 percent) of covered-employee payroll.

For the Public Employee Retirement Plan, each governmental entity is required by statute to contribute the ADC except that the contribution rate for state employees hired after June 30, 2014 is the greater of the ADC or four percent (4 percent). The ADC is the estimated amount necessary to finance the costs of benefits earned by plan members during the plan year, the unfunded accrued liability, and the cost of administration. For the year ended June 30, 2015, the required ADC varied for each participating employer, with approximately fifty percent (50 percent) of all employer rates between eight percent (8 percent) and twenty percent (20 percent) and contributions from these same employers accounting for over ninety percent (90 percent) of the contributions

(CONTINUED)

for this plan. By statute, state employees hired before July 1, 2014 are noncontributory while employees hired after June 30, 2014 contribute five percent (5 percent) of salary. As adopted by the governmental entity, political subdivision employees may be noncontributory, contribute two and one-half percent (2.5 percent) of salary, or contribute five percent (5 percent) of salary.

Reserves - The statute governing the Teacher Retirement Plan and certain employers in the Public Employee Retirement Plan provide for a minimum employer contribution rate of four percent (4 percent). The statute further provides that the amount of the employer contributions in excess of the actuarially determined contribution rate is deposited into a stabilization reserve for each plan. The statute may be amended by the Tennessee General Assembly. Assets in the stabilization reserve are commingled for investment purposes and receive a pro rata share of investment earnings. The amount in the stabilization reserve is not considered in calculating the actuarially determined employer contribution rate for each plan. The statute provides that the assets in the stabilization reserve will be utilized should the actuarially determined contribution rate exceed four percent (4 percent). In such case, the required employer contribution in excess of four percent (4 percent) will be transferred from the stabilization reserve to the account of the Teachers Retirement Plan or certain Public Employee Retirement Plan employers. By statute, the Board of Trustees may adopt a policy to suspend the deposits into the stabilization reserve in any given year when the stabilization reserve reaches a certain level that is determined by the Board. If deposits are suspended, then the employer contribution will be the actuarially determined contribution rate for that year rather than the higher four percent (4 percent). The Board has not adopted a policy at this time. At June 30, 2015, there was $3,232,080 in the stabilization reserve on behalf of the Teachers Retirement Plan and $1,987,839 in the various stabilization reserves on behalf of the Public Employee Retirement Plan.

C. DEPOSITS AND INVESTMENTS

Statutory Authority - State statute authorizes the TCRS to maintain cash, not exceeding ten percent (10 percent) of the total amount of funds in the retirement system, on deposit in one or more banks, savings and loan associations or trust companies that are qualified as state depositories. The TCRS does not utilize its own bank accounts but invests in the State Pooled Investment Fund for the initial deposit of funds and for its operating cash needs. The State Pooled Investment Fund is authorized by state statute to invest funds in accordance with policy guidelines approved by the Funding Board of the State of Tennessee. The current resolution of that board gives the Treasurer authority to invest in collateralized certificates of deposit in authorized state depositories, prime commercial paper, prime bankers' acceptances, certain repurchase agreements and various U.S. Treasury and Agency obligations. The State Pooled Investment Fund is also authorized to enter into securities lending agreements in which U.S. Government Securities may be loaned for a fee. The loaned securities are transferred to the borrower by the custodial agent upon simultaneous receipt of collateral securities.

State statute also authorizes the TCRS to invest in bonds, debentures, preferred stock and common stock, real estate and in other good and solvent securities subject to the approval of the Board of Trustees, but further subject to the following statutory restrictions and provisions:

a. The total sum invested in common and preferred stocks shall not exceed seventy-five percent (75 percent) of the total of the funds of the retirement system.

b. The total sum invested in notes and bonds or other fixed income securities exceeding one year in maturity shall not exceed seventy-five percent (75 percent) of the total funds of the retirement system.

c. Within the restrictions in (a) and (b) above, an amount not to exceed twenty-five percent (25 percent) of the total of the funds of the retirement system may be invested in securities of the same kinds, classes, and investment grades as those otherwise eligible for investment in various approved foreign countries, provided that such percentage may be increased by the board with the subsequent approval of the council on pensions and insurance.

(CONTINUED)

d. Within the restrictions in (a) and (b) above, funds may be invested in Canadian securities which are substantially of the same kinds, classes and investment grades as those otherwise eligible for investment.

e. The total amount of securities loaned under a securities lending program cannot exceed thirty percent (30 percent) of total assets.

f. The total sum invested in real estate shall not exceed ten percent (10 percent) of the market value of total assets

g. The total sum invested in private equities shall not exceed ten percent (10 percent) of the market value of total assets.

State statute also authorizes the TCRS to invest in forward contracts to hedge its foreign currency exposure and to purchase or sell domestic equity index futures contracts for the purpose of asset allocation relating to the domestic equity portfolio. The total amount of the financial futures contract obligation shall not exceed ten percent (10 percent) of the market value of total assets. Gross exposure to approved fixed income financial instruments will be limited to ten percent (10 percent) of the market value of the System's total assets for risk mitigating positions and ten percent (10 percent) for risk positions. Position sizes will be measured by notional amounts. Options will be measured in their notional equivalents.

Investment Policy - The TCRS investment authority is established pursuant to Tennessee Code Annotated Title 8, Chapter 37. The statute provides the Board of Trustees with the responsibility to establish the investment policy of the TCRS. The investment policy may be amended by the Board. The TCRS plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided by the TCRS. The following was the TCRS Board's adopted asset allocation policy as of June 30, 2015:

Authorized Asset Class	Target Allocation
U.S. Equity	33%
Canadian Equity	4%
Developed Market International Equity	13%
Emerging Market International Equity	5%
Private Equity	3%
U.S. Fixed Income	25%
Inflation Indexed Fixed Income	4%
International Fixed Income	0%
Strategic Lending	5%
Real Estate	7%
Short-Term Securities	1%
Total	100%

(CONTINUED)

Securities Lending - The TCRS is authorized to invest in securities lending investments by TCA 8-37-104(a)(6) with the terms established in the investment policy whereby TCRS loans securities to brokers and dealers (borrower) and in turn, TCRS receives cash as collateral. TCRS pays the borrower interest on the collateral received and invests the collateral with the goal of earning a higher yield than the interest rate paid to the borrower. Loans are limited to no more than thirty percent (30 percent) of the market value of the total assets in the TCRS portfolio and provided further that such loans are secured by collateral. Securities received as collateral hereunder shall have a market value equal to at least one hundred two percent (102 percent) of the market value of the loaned domestic security or one hundred five percent (105 percent) of any foreign security. Cash received as collateral shall equal at least one hundred percent (100 percent) of the market value of the loaned securities and may be invested by or on behalf of the TCRS in any instrument the TCRS may be directly invested. Cash Collateral is held in the TCRS name and is not subject to custodial credit risk. During the year there were no violations of legal or contractual provisions by the TCRS.

The TCRS securities lending program is managed by a third party lending agent, Deutsche Bank AG. The TCRS may loan any debt or equity securities which is owned by TCRS. At June 30, 2015, the TCRS had the following securities on loan and received the cash collateral as shown below:

Securities on Loan	Fair Value of Securities on Loan	Cash/Non-Cash Collateral Received
Fixed	$2,031,510,790	$2,077,594,484
Equity	3,730,719,970	3,815,349,280
Total	$5,762,230,760	$5,892,943,764

The TCRS has the ability to sell the collateral securities only in the case of a borrower default.

(CONTINUED)

As of June 30, 2015 the TCRS had the following investments:

Credit Quality Distribution for Securities with Credit Exposure as a Percentage of Total Investments

Rating	Fair Value (in thousands)	Percentage of Total Investments
AAA	$ 876,554	2.052%
AA	521,115	1.220%
A	1,077,924	2.524%
BBB	2,757,564	6.457%
BB	183,838	0.430%
B	39,467	0.092%
CCC	90,396	0.212%
CC	1,181	0.003%
D	35,069	0.082%
NR	3,400,589	7.963%
	$ 8,983,697	
U. S. Government Agencies and Obligations Explicitly Guaranteed by the U.S. Government	5,627,671	
Total Fixed Income Securities	$ 14,611,368	
Equity	$ 23,757,978	
Real Estate	2,684,791	
Private Equities	1,062,184	
Strategic Lending	936,416	
Derivative Instruments (not rated)	0	
Escrow Claim (not rated)	0	
Short Term Investment Fund with Custodian (NR)	1,772	
Add Back Short Term Investments Classified as Cash	(347,131)	
Total Investments as Shown on Fiduciuary Net Position	$ 42,707,378	

Credit Risk - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The credit quality distribution for the TCRS' investments in fixed income securities at year end is included in the above schedule. Securities are rated using Standard and Poor's and/or Moody's and are presented above using the Standard and Poor's rating scale. The State Pooled Investment Fund has not obtained a credit quality rating from a nationally recognized credit ratings agency.

The TCRS' investment policy specifies that bond issues subject for purchase are investment grade bonds rated in the four highest ratings by one of the recognized rating agencies. For short-term investments, the TCRS' investment policy provides for the purchase of only the highest quality debt issues. Commercial paper should be rated in the highest tier by all rating agencies which rate the paper, with a minimum of two ratings required.

(CONTINUED)

Commercial paper cannot be purchased if a rating agency has the commercial paper on a negative credit watch. The investment policy also requires preparation of a credit analysis report on the corporation prior to purchasing commercial paper.

As noted above, the TCRS does not utilize its own bank accounts but invests in the State Pooled Investment Fund for its operating cash purposes. Required risk disclosures relative to the State Pooled Investment Fund are presented in the State of Tennessee Treasurer's Report. That report is available on the state's website at http://www.tn.gov/treasury/.

Interest Rate Risk - Interest rate risk is the risk that future changes in prevailing market rates of interest will have an adverse effect on the fair value of debt investments. The fair values of securities with long terms to maturity may be highly sensitive to interest rate changes. The TCRS' investment policy does not specifically address limits on investment maturities. The fixed income portfolio, however, is benchmarked against the Citigroup Broad Investment Grade Index and tends to have duration within a range around that index. Duration is a measure of a debt investment's exposure to fair value changes arising from changing interest rates. It uses the present value of cash flows weighted for those cash flows as a percentage of the investment's full price. The TCRS had the following investments and effective duration at year end.

Investment Type	Fair Value as of June 30, 2015 *(in thousands)*	Effective Duration (years)
Government Agencies	$ 288,764	8.18
Government Bonds	2,255,342	14.11
Government Inflation Indexed	2,604,278	8.45
Government Mortgage Backed	3,466,373	4.30
Government Asset Backed	45,411	7.15
Municipal Bonds	156,099	10.22
Commercial Mortgage Backed	470,623	2.40
Corporate Asset Backed Securities	236,558	2.41
Corporate Bonds	4,536,294	8.31
Short Term Bills and Notes	551,626	0.05
Total Debt Investments	$14,611,368	7.70

Asset-Backed Securities - The TCRS invests in various collateralized mortgage obligations (CMOs) which are mortgage-backed securities. These securities are based on cash flows from interest and principal payments on underlying mortgages and could therefore be more sensitive to prepayments by mortgagees as a result of a decline in interest rates. The fair value of CMOs at June 30, 2015 was $470,622,689 of which $317,431,678 were CMOs that are generally more sensitive to interest rate changes.

Foreign Currency Risk - Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or deposit. The TCRS' investment policy limits the asset allocation for international investments to twenty-five percent (25 percent) of total assets. The TCRS' exposure to foreign currency risk was as follows:

(CONTINUED)

Currency	Total Fair Value June 30, 2015 *(in thousands)*	Fixed Income	Equity *(in thousands)*	Cash *(in thousands)*
Australian Dollar	$ 246,507	$0	$ 246,300	$ 207
British Pound Sterling	1,112,564	0	1,103,194	9,370
Canadian Dollar	1,577,942	0	1,562,054	15,888
Danish Krone	122,986	0	122,986	0
Euro Currency	1,519,192	0	1,512,236	6,956
Hong Kong Dollar	203,728	0	201,594	2,134
Japanese Yen	1,373,639	0	1,356,066	17,573
New Israeli Shekel	19,773	0	19,661	112
New Zealand Dollar	6,146	0	6,146	0
Norwegian Krone	48,326	0	48,121	205
Singapore Dollar	54,479	0	54,375	104
Swedish Krona	166,508	0	166,494	14
Swiss Franc	545,066	0	543,181	1,885
Total	$6,996,856	$0	$6,942,408	$54,448

Custodial Credit Risk - Custodial Credit Risk for deposits is the risk that in the event of a bank failure, the TCRS' deposits may not be returned to TCRS. The TCRS does not have an explicit policy with regards to Custodial Credit Risk for deposits. At year end, the TCRS had uninsured and uncollateralized cash deposits of $54,448,276 in foreign currency held by our master custodian, State Street Bank, in State Street's name. These deposits were used for investments pending settlement.

Rate of Return - For the year, the money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 3.29 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Derivatives:

Futures - The TCRS may buy or sell fixed income and equity index futures contracts for the purposes of making asset allocation changes in an efficient and cost effective manner and to improve liquidity. Gains (losses) on futures hedge losses (gains) produced by any deviation from the TCRS' target allocation. The gains and losses resulting from daily fluctuations in the fair value of the outstanding futures contract are settled daily, on the following day, and a receivable or payable is established for any unsettled gain or loss as of the financial statement date. Any resulting payable is reflected in the financial statements at fair value.

Foreign Currency Forward Contracts - The international securities expose the TCRS to potential losses due to a possible rise in the value of the US dollar. The TCRS investment managers can reduce foreign currency exposure by selling foreign currency forward contracts, at agreed terms and for future settlement, usually within a year. The manager will reverse the contract by buying the foreign currency before the settlement date. A gain (loss) on this transaction pair will hedge a loss (gain) on the currency movement of the international security. The TCRS can sell up to eighty percent (80 percent) of its foreign currency exposure into US dollars. Foreign currency

(CONTINUED)

forward contracts expose the TCRS to foreign currency risk as they are denominated in foreign currency. Any unrealized gain on foreign currency forward contracts has been reflected in the financial statements as an investment. The notional amount of the foreign currency forward contracts has been reflected in the financial statements as a receivable and a payable. Any unrealized loss on foreign currency forward contracts has been included in the payable established for the contracts.

Mortgages - The TCRS is authorized to invest in To Be Announced (TBA) mortgage backed securities similar to the foreign currency forward contracts. The TCRS enters into agreements to purchase pools of mortgage backed securities prior to the actual security being identified. The TCRS will roll this agreement prior to settlement date to avoid taking delivery of the security. Any unrealized gain on TBA mortgage backed securities has been reflected in the financial statements as an investment. Any unrealized loss on TBA mortgage backed securities has been included in the payable established for the mortgages. The notional amounts of these agreements have been included in the financial statements as a receivable and a payable. The TCRS invests in these derivatives to adjust its exposure to mortgage coupon risk and to replicate the return on mortgage backed securities portfolios without actually purchasing the security.

Options - The TCRS is authorized to enter into option contracts and any income earned on option contracts has been included in investment income in the financial statements.

The fair value balances and notional amounts of derivative instruments outstanding at year end, classified by type, and the changes in fair value of derivative instrument types for the year ended as reported in the financial statements are as follows:

	Changes in Fair Value *(in thousands)*		**Fair Value at June 30, 2015 *(in thousands)***			
	Financial Statement Classification	**Amount**	**Financial Statement Classification**	**Amount**	**Notional Amount**	**Currency**
Foreign Currency Forward Contracts						
		$142		$142	16,390	EUR
		(332)		(332)	16,845,184	JPY
	Investment Income	($190)	Derivative Instruments Payable	($190)		
Futures Contracts						
	Investment Income	($22,559)	Derivative Instruments Receivable	$352	$859,140	
TBA Mortgage Backed Securities						
	Investment Income	($734)	Derivative Instruments Receivable	($734)	$369,403	

(CONTINUED)

The fair values of foreign currency forward contracts are estimated based on the present value of their estimated future cash flows. Futures, Options and TBA mortgage backed securities are exchange traded and their price is based on quoted market prices at year end. It is the TCRS policy to conduct derivative transactions through the custodian bank and high quality money center banks or brokerage firms. The credit risk of foreign currency forward contracts is managed by limiting the term of the forward contracts and restricting the trading to high quality banks. The credit risk of futures contracts is managed by maintaining a daily variation margin.

Alternative Investments - The TCRS has investments in strategic lending, private equity funds and real estate with an estimated fair value of $4,683,390,636 at June 30, 2015. Because these investments are not readily marketable, the estimated value is subject to uncertainty and, therefore, may differ from the value that would have been used had a ready market for the investments existed, and such differences could be material. Title to real property invested in by TCRS is held by real estate investment holding companies.

Commitments:

Standby Commercial Paper Purchase Agreement - The TCRS has agreed to serve as standby commercial paper purchaser for commercial paper issued by the Funding Board of the State of Tennessee. By serving as a standby commercial paper purchaser, the TCRS receives an annual fee of 25 basis points on the $350 million maximum issuance under this agreement during times when both Moody's and Standard and Poor's investment ratings assigned to the State of Tennessee's general obligation bonds are Aaa and AAA respectively, 40 basis points during times when either Moody's or Standard and Poor's has assigned ratings of Aa and AA respectively, or 55 basis points during times when either Moody's or Standard and Poor's has assigned ratings lower than Aa and AA respectively. In the unlikely event that the TCRS would be called upon to purchase the commercial paper, the TCRS would receive interest at a rate equal to prime plus 75 basis points during the first 30 consecutive days, plus an additional 50 basis points for each consecutive 30 days thereafter, up to a maximum rate allowed by state law.

Alternative Investments – The TCRS had unfunded commitments of $1,978,496,528 in private equity, strategic lending, and real estate commitments at year end.

D. NET PENSION LIABILITY (ASSET) FOR COST-SHARING PLANS

The components of net pension liability at June 30, 2015, were as follows:

	Teacher Legacy Pension Plan	Teacher Retirement Plan
Total Pension Liability	$ 22,073,402,943	$ 16,129,977
Plan Fiduciary Net Position	(21,284,877,037)	(18,680,373)
Net Pension Liability (Asset)	$ 788,525,906	$ (2,550,396)
Plan Fiduciary Net Position	96.43%	115.81%

(CONTINUED)

Actuarial Assumptions - The total pension liability was determined by an actuarial valuation as of July 1, 2014, updated to roll forward to June 30, 2015, using the following actuarial assumptions applied to all prior periods included in the measurement:

Inflation	3.0 percent
Salary Increases	Graded salary ranges from 8.97 to 3.71 percent based on age, including inflation, averaging 4.25 percent
Investment Rate of Return	7.5 percent, net of pension plan investment income, including inflation
Cost-of-Living Adjustment	2.5 percent

Mortality rates were based on actual experience from the June 30, 2012 actuarial experience study plus some adjustment for expected future improvement in life expectancy.

The actuarial assumptions used in the July 1, 2014 actuarial valuation were based on the results of an actuarial experience study performed for the period July 1, 2008 through June 30, 2012. The demographic assumptions were adjusted to more closely reflect actual and expected future experience.

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees in conjunction with the June 30, 2012 actuarial experience study by considering the following three techniques: (1) the 25-year historical return of the TCRS at June 30, 2012, (2) the historical market returns of asset classes from 1926 to 2012 using the TCRS investment policy asset allocation, and (3) capital market projections that were utilized as a building-block method in which best-estimate ranges of expected future real rate of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. Four sources of capital market projections were blended and utilized in the third technique. The blended capital market projection established the long-term expected rate of return by weighting the expected future real rate of return by the target asset allocation percentage and by adding inflation of three percent (3 percent). The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return	Target Allocations
U.S. Equity	6.46%	33%
Developed Market International Equity	6.26%	17%
Emerging Market International Equity	6.40%	5%
Private Equity and Strategic Lending	4.61%	8%
U.S. Fixed Income	0.98%	29%
Real Estate	4.73%	7%
Short-Term Securities	0.00%	1%
		100%

(CONTINUED)

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees as seven and one-half percent (7.5 percent) based on a blending of the three techniques described above.

Discount Rate - The discount rate used to measure the total pension liability was seven and one-half percent (7.5 percent). The projection of cash flows used to determine the discount rate assumed that employee contributions from plan members will be made at the statutorily required contribution rates and that employer contributions from LEAs will be made at the actuarially determined rate as required by statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of Net Pension Liability (Asset) to Changes in the Discount Rate - The following presents the Teacher Legacy Pension Plan's and Teacher Retirement Plan's net pension liability for LEAs using the discount rate of seven and one-half percent (7.5 percent), as well as what its net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.5 percent) or one percentage point higher (8.5 percent) than the current rate:

Plan	One Percent Decrease (6.5%)	Current Discount Rate (7.5%)	One Percent Increase (8.5%)
Teacher Legacy Pension Plan	$3,633,924,606	$788,525,906	($1,567,286,797)
Teacher Retirement Plan	$589,448	($2,550,396)	($5,179,946)

SCHEDULE OF CHANGES IN NET PENSION LIABILITY
Fiscal Year Ended June 30

	2015	2014
Total pension liability		
Service cost	$ 393,173,920	$ 404,576,942
Interest	1,578,251,721	1,483,656,307
Change of benefit terms	0	0
Difference between expected and actual experience	46,576,630	0
Change of assumptions	0	0
Benefit payments, including refunds of member contributions	(1,096,410,122)	(1,037,013,093)
Net change in total pension liability	921,592,149	851,220,156
Total pension liability - beginning	21,151,810,794	20,300,590,638
Total pension liability - ending (a)	22,073,402,943	21,151,810,794
Plan fiduciary net position		
Contributions – employer	338,301,211	348,474,888
Contributions - members	187,121,567	195,520,938

Report on the Financial Statements

We have audited the accompanying balance sheet of the Tennessee Promise Scholarship Endowment Trust Fund, a special revenue fund of the State of Tennessee, as of June 30, 2015, the related statement of revenues, expenditures, and changes in fund balance for the year then ended, and the related notes to the financial statements, which collectively comprise the Tennessee Promise Scholarship Endowment Trust Fund's basic financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

(CONTINUED)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion. Tennessee statutes, in addition to audit responsibilities, entrust certain other responsibilities to the Comptroller of the Treasury. Those responsibilities include serving as a member of the board of the Tennessee Promise Scholarship Endowment Trust Fund. We do not believe that the Comptroller's service in this capacity affected our ability to conduct an independent audit of the Tennessee Promise Scholarship Endowment Trust Fund.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Tennessee Promise Scholarship Endowment Trust Fund of the State of Tennessee as of June 30, 2015, and the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note A.1., the financial statements present only the Tennessee Promise Scholarship Endowment Trust Fund, a special revenue fund, and do not purport to, and do not, present fairly the financial position of the State of Tennessee as of June 30, 2015, and the changes in its financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2015, on our consideration of the Tennessee Promise Scholarship Endowment Trust Fund's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Tennessee Promise Scholarship Endowment Trust Fund's internal control over financial reporting and compliance.

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. **Reporting Entity** - The Tennessee Promise Endowment Fund (the TN Promise Fund) forms an integral part of the primary government and has been included as a special revenue fund in the *Tennessee Comprehensive Annual Financial Report*.

2. **Measurement Focus and Basis of Accounting** - The accompanying financial statements have been prepared in accordance with generally accepted ac-counting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB), using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they become both measurable and available, and generally expenditures are recognized when the related fund liability is incurred. Interest associated with the current fiscal year is considered to be available if received in six months.

3. **Cash and Cash Equivalents** - Cash and cash equivalents includes cash and short-term investments with a maturity date within three months of the acquisition date. Cash management pools are included as cash. Cash received that cannot be immediately invested in securities, or that is needed for operations, is invested in either the State Pooled Investment Fund, sponsored by the State of Tennessee and administered by the State Treasurer, or a short-term, open-end mutual fund under the contractual arrangement for master custody services. During the period from July 1 - August 31, 2014, the short-term, open-end mutual fund was with Northern Trust invested in the Northern Institutional Government Portfolio. During the period from September 1, 2014 to June 30, 2015, the short-term, open-end mutual fund would have been with State Street Bank invested in State Street Government Money Market Fund.

4. **Method Used to Report Investments and Participant Shares** - Investments are reported at fair value. For fair value reporting, securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. The fair value of investments in open-end mutual funds and exchange traded funds is based on the share price. Investment income includes realized and unrealized appreciation (depreciation) in the fair value of investments, and interest and dividend income. Securities and securities transactions are recorded in the financial statements on trade date basis.

5. **Fund Balances** - Nonspendable fund balance includes amounts that cannot be spent because they are legally or contractually required to be maintained intact. The TN Promise Fund's non-spendable corpus consists of the initial deposit of (i) the program-generated revenues plus the earnings as of June 30, 2014 of the Tennessee Student Assistance Corporation (TSAC) invested as part of the Chairs of Excellence Endowment Fund established by *Tennessee Code Annotated* Section 49-7-501 and pursuant to Chapter 98 of the *Public Acts of 2013*; and (ii) the June 30, 2014 balance of the lottery for education account established in accordance with Tennessee Code Annotated Section 4-51-111(b), but excluding the general shortfall reserve subaccount provided in *Tennessee Code Annotated* Section 4-51-111(b)(3) and the sum of ten million dollars ($10,000,000). The TN Promise Fund's restricted fund balance, which may be subject to future allocation and/or distribution in accordance with the Tennessee Promise Scholarship Endowment Trust agreement, includes all amounts that are transferred to the TN Promise Fund, except the initial deposit constituting the corpus, and all investment income of the TN Promise Fund.

B. DEPOSITS AND INVESTMENTS

State statute authorizes the trustees of the TN Promise Fund to adopt an investment policy for the trust in accordance with the laws, policies and guidelines that govern investments by the Tennessee Consolidated Retirement System. The State Treasurer is responsible for the investment of the TN Promise Fund in accordance with the policy established by the trustees. The current policy of the trustees for the TN Promise Fund gives the Treasurer approval to invest and reinvest the TN Promise Fund assets in the same securities or investments in which the Tennessee Consolidated Retirement System is permitted to invest. The policy also allows assets to be invested in shares of publicly traded investment companies, including Unit Investment Trusts (UIT's), Exchange Traded Funds (ETF's) and open-end and closed-end mutual funds. In addition, it permits investment in publicly traded foreign securities that are the same kinds, classes and investment grades otherwise eligible for investment, and in non-investment grade, fixed income securities, including but not limited to, high yield bonds.

State statute also authorizes the TN Promise Fund to be commingled for investment purposes with other trust funds and other funds subject to investment by the State Treasurer. The TN Promise Fund does not maintain its own bank accounts but utilizes the State Pooled Investment Fund (SPIF) for its operating cash needs. The SPIF is authorized by state statute to invest funds in accordance with policy guidelines approved by the Funding Board of the State of Tennessee. The current resolution of that board gives the Treasurer authority to invest in collateralized certificates of deposit in authorized state depositories, prime commercial paper, prime bank-ers' acceptances, certain repurchase agreements and various U.S. Treasury and Agency obligations. The SPIF is also authorized to enter into securities lending agreements in which U.S. Government Securities may be loaned for a fee. The loaned securities are transferred to the borrower by the custodial agent upon simultaneous receipt of collateral securities.

As of June 30, 2015 the TN Promise Fund had the following investments (expressed in thousands):

Credit Quality Distribution for Securities with Credit Exposure as a Percentage of Total Investments
June 30, 2015

(Expressed in Thousands)

Rating	Fair Value	Percentage of Total Investments
AAA	$ 5,534	1.60%
AA	20,014	5.80%
A	61,847	17.93%
BBB	41,016	11.89%
Not Rated	29,897	8.67%
Total Debt Investments	158,308	
Government Agencies and Obligations*	22,703	
Total Fixed Income Securities	181,011	
Equity	164,019	
Total Investments as Shown on Statements	$ 345,030	

** Includes obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government which are not rated by credit rating agencies.*

(CONTINUED)

Credit Risk - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Credit quality ratings for the TN Promise Fund's investments in fixed income securities as of June 30, 2015 are included in the above schedule. Securities are rated using Standard and Poor's and/or Moody's and are presented above using the Standard and Poor's rating scale. The State Pooled Investment Fund has not obtained a credit quality rating from a nationally recognized credit ratings agency. The State Street Government Money Market Fund is not rated at June 30, 2015. The investment policy and required risk disclosures relative to the SPIF are presented on pages 114-121 of this report.

Concentration of Credit Risk - A concentration of investments in any one single issuer of debt securities presents a greater risk for loss in the event that the issuer fails on its obligations. The TN Promise Fund the following investment amounts as a percentage of total investments at June 30, 2015 in organizations representing five percent or more of total investments, excluding those organizations whose issues are explicitly guaranteed by the United States government, and investments in mutual funds, external investment pools, and other pooled investments.

	June 30, 2015	
Issuer Organization	**Fair Value**	**Percentage**
Federal Home Loan Mortgage Corporation	$ 17,618,297	5.11%

The TN Promise Fund's investment policy does not specifically address limitations on investing in any one issuer.

Interest Rate Risk - Interest rate risk is the risk that future changes in prevailing market rates of interest will have an adverse effect on the fair value of debt investments. The fair values of securities with long terms to maturity may be highly sensitive to interest rate changes. The investment policy for the TN Promise Fund does not specifically address limits on investment maturities. The TN Promise Fund had the following investments and effective duration at June 30, 2015:

(Expressed in Thousands)		
Investment Type	**Fair Value as of June 30, 2015**	**Effective Duration (years)**
Debt Investments		
U.S. Government Treasuries	$ 12,742	6.88
Municipal Bonds	2,933	8.25
Government Asset Backed	7,060	6.01
Government Mortgage Backed	27,069	4.92
Corporate Bonds	119,032	4.68
Corporate Mortgage Backed	12,175	4.39
Total Debt Investments	$181,011	4.96

(CONTINUED)

Asset Backed Securities - The TN Promise Fund invests in collateralized mortgage obligations (CMOs) which are mortgage backed securities. These securities are based on cash flows from interest and principal payments on underlying mortgages. Therefore, they are sensitive to prepayments by mortgagees, which may result from a decline in interest rates. The fair value of CMOs at June 30, 2015 was $12,174,688 of which none of these CMOs were CMOs that are generally more sensitive to interest rate changes.

C. OTHER ACCOUNTING DISCLOSURES

Description of the Tennessee Promise Scholarship Endowment Fund - The TN Promise Fund was established by Chapter No. 900 of the *Public Acts of 2014* for the purpose of funding the Tennessee Promise Scholarship Program, a scholarship program for Tennessee residents seeking an associate's degree, certificate or diploma from an eligible postsecondary institution. The TN Promise Fund consists of the Tennessee Promise Endowment Account and the Tennessee Promise Scholarship Special Reserve Account. The Tennessee Promise Endowment Account is comprised of the initial deposit of $361,381,325 and is the non-spendable corpus amount of the TN Promise Fund. All income and subsequent deposits and transfers to the TN Promise Fund will be credited to the Tennessee Promise Scholarship Special Reserve Account, to be used only for the payment of scholarships and expenses relative to the administration and investment of assets.

Report on the Financial Statements

We have audited the accompanying statements of fiduciary net position of the TN Stars College Savings 529 Program, a private-purpose trust fund of the State of Tennessee, as of June 30, 2015, and June 30, 2014, the related statements of changes in fiduciary net position for the years then ended, and the related notes to the financial statements, which collectively comprise the TN Stars College Savings 529 Program's basic financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

(CONTINUED)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion. Tennessee statutes, in addition to audit responsibilities, entrust certain other responsibilities to the Comptroller of the Treasury. Those responsibilities include serving as a member of the board of the TN Stars College Savings 529 Program. We do not believe that the Comptroller's service in this capacity affected our ability to conduct an independent audit of the TN Stars College Savings 529 Program.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position of the TN Stars College Savings 529 Program of the State of Tennessee as of June 30, 2015, and June 30, 2014, and the changes in fiduciary net position thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note A.1., the financial statements present only the TN Stars College Savings 529 Program, a private-purpose trust fund of the State of Tennessee, and do not purport to, and do not, present fairly the financial position of the State of Tennessee as of June 30, 2015, and June 30, 2014, and the changes in its financial position for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2015, on our consideration of the TN Stars College Savings 529 Program's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, and contracts and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the TN Stars College Savings 529 Program's internal control over financial reporting and compliance.

NET POSITION - RESTRICTED FOR PLAN PARTICIPANTS		
BEGINNING OF YEAR	17,536,559	6,714,010
END OF YEAR	$32,852,360	$17,536,559

See accompanying Notes to the Financial Statements.

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. **Reporting Entity –** The TN Stars College Savings 529 Program, Educational Savings Plan (ESP) is included in the State of Tennessee financial reporting entity. Because of the state's fiduciary responsibility, the ESP has been included in the *Tennessee Comprehensive Annual Financial Report* as a private-purpose trust fund.

2. **Measurement Focus and Basis of Accounting –** The accompanying financial statements have been prepared in accordance with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB). The financial statements have been prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred regardless of the timing of related cash flows.

3. **Cash –** The ESP does not maintain its own bank accounts but utilizes the State Pooled Investment Fund for its operating cash needs. The State Pooled Investment Fund is authorized by state statute to invest funds in accordance with policy guidelines approved by the Funding Board of the State of Tennessee. The current resolution of that board gives the Treasurer authority to invest in collateralized certificates of deposit in authorized state depositories, prime commercial paper, prime bankers' acceptances, certain repurchase agreements, and various U.S. Treasury and Agency obligations. The State Pooled Investment Fund (SPIF) is also authorized to enter into securities lending agreements in which U.S. Government Securities may be loaned for a fee. The loaned securities are transferred to the borrower by the custodial agent upon simultaneous receipt of collateral securities. The investment policy and required risk disclosures relative to the State Pooled Investment Fund are presented on pages 114-121 of this report.

4. **Method Used to Value Investments –** Investments are reported at fair value. Securities traded on a national exchange are valued at the last reported sales price. The fair value of investments in open-end mutual funds is based on the share price. Investment income consists of realized and unrealized appreciation (depreciation) in the fair value of investments and interest and dividend income. Interest income is recognized when earned. Securities and securities transactions are recorded in the financial statements on trade-date basis.

B. DEPOSITS AND INVESTMENTS

Overview - In accordance with State statute, the ESP assets may be invested in any instrument, obligation, security or property that constitutes a legal investment for assets of the Tennessee Consolidated Retirement System (TCRS) or any other investment deemed appropriate by the Board. The authority for investing the assets of the ESP is vested in the Baccalaureate Education System Trust (BEST) Board of Trustees (the "Board") and the responsibility for implementing the investment policy established by the Board is delegated to the State Treasurer.

Recognizing that plan participants may have an investment horizon ranging from a few months to more than twenty years, the ESP has selected a group of investment products that have an investment risk profile ranging from conservative to aggressive. The investment products selected are evaluated based on a number of factors including but not limited to fees, investment performance, investment strategy, any available ratings of the products, and suitability of products for participants. It is the responsibility of the ESP to provide products to plan participants; however it is the participants who select the options that suit their individual investment needs.

Credit Risk – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations with regard to debt. The ESP does not currently own specific fixed income securities, but provided options to plan participants to invest in mutual funds that invest in fixed income securities. Mutual funds with 100% allocations in fixed income securities are considered to be fixed income investments while

(CONTINUED)

mutual funds with some portion of their assets invested in fixed income securities are considered blended investments. At June 30, 2015 and June 30, 2014, these funds were not specifically rated by any rating agency; however the underlying securities of the funds had an average credit quality rating of Baa (4th highest) or better. At June 30, 2015, 25% of the total plan assets have some portion of their portfolio invested in fixed income securities. Another 3% of the total plan assets are invested in a money market account which is FDIC insured and is not considered to be exposed to credit risk. At June 30, 2014, 65% of the total plan assets have some portion of their portfolio invested in fixed income securities. Another 4% of the total plan assets are invested in the money market account.

Interest Rate Risk – IInterest rate risk is the risk that future changes in prevailing market rates of interest will have an adverse effect on the fair value of debt investments. The fair values of securities with long terms to maturity may be highly sensitive to interest rate changes. The ESP provides investment products for participants to select, however it is the participant that is responsible for selecting an option(s) that best suit their investment needs. As such, the ESP does not have a policy regarding the management of interest rate risk in periods of volatile interest rates. Duration is a measure of a debt investment's exposure to fair value changes arising from changing interest rates. It uses the present value of cash flows weighted for those cash flows as a percentage of the investment's full price. Presented below is a comparative statement of Effective Duration as of June, 30, 2015 and June 30, 2014:

	Fiscal Year 2015		Fiscal Year 2014	
Fund Name	**Ending Balance**	**Effective Duration**	**Ending Balance**	**Effective Duration**
Blended				
Vanguard Wellington Fund Admiral Shares	$ 6,322,794	5.94	$ 3,631,032	6.26

Vanguard Intermediate-Term Treasury Admiral Shares	77,861	5.30	49,206	5.15

C. DESCRIPTION OF THE EDUCATIONAL SAVINGS PLAN

The TNStars College Savings 529 Program, Educational Savings Plan (ESP), administered by the State Treasurer, was created under Tennessee Code Annotated, Title 49, Chapter 7, Part 8 and is designed to help people save for the costs of education after high school. The ESP is administered by the Baccalaureate Education System Trust (BEST) Board of Trustees (the "Board"). The Board has the authority to appoint an ESP manager, adopt rules to implement and administer the ESP and establish investment policies for the ESP, to invest moneys of the trust in investments determined by the Board to be appropriate and to administer the funds of the Trust Fund. The ESP called TNStars began operations on September 18, 2012.

When opening an account, the owner may select two types of investment options, the Aged-Based Option and the Self Selected Investment Option. Within the Aged-Based Option, contributions are allocated among five age bands, based on the age of the beneficiary. Each Age Band is invested in specific Dimensional Fund Advisors (DFA) or Vanguard mutual funds from our slate of investment options ("an Underlying Fund"). The Age Bands become more conservatively invested as the beneficiary ages. The Self Selected Investment Option allows owners to invest in any underlying Fund. The list of investment options or underlying funds is listed below:

Fund Name	Ticker Symbol	CUSIP	Age Band Option (yrs)
Equity			
Vanguard 500 Index Admiral Shares	VFIAX	922908710	
Great-West American Century Growth Fund*	MXGRX	57776T546	
PRIMECAP Odyssey Aggressive Growth Fund	POAGX	74160Q202	
Vanguard Mid-Cap Growth Investor Shares	VMGRX	921946307	
DFA Large Cap International Portfolio Institutional Class	DFALX	233203868	
DFA US Small Cap Fund	DFSTX	233203843	
DFA US Large Cap Value Fund	DFLVX	233203827	0-4
Blended			
DFA Enhanced U.S. Large Company Portfolio Institutional Class*	DFELX	233203637	
Vanguard Wellington Fund Admiral Shares	VWENX	921935201	5-10
Vanguard LifeStrategy Conservative Growth Fund	VSCGX	921909305	11-14

Fixed Income			
DFA Inflation-Protected Securities Portfolio Institutional Class	DIPSX	233203355	
Vanguard Total Bond Market Admiral Shares	VBTLX	921935201	18+
Vanguard Intermediate-Term Investment-Grade Fund Admiral Shares	VFIDX	922031810	
Vanguard Intermediate-Term Treasury Admiral Shares	VFIUX	922031828	

* Funds are no longer an investment option as of June 30th. Money has been transferred out of these options. See Note D.2.

Participants in the ESP can make withdrawals at any time after contributions have been invested for 21 days. This time period was reduced from 60 days in FY 2014, by the Baccalaureate Education System Trust Board. Withdrawals used for qualifying higher educational expenses receive certain tax incentives; additionally those not used for qualifying higher educational expenses receive certain tax penalties based on the participant's individual circumstances.

Pursuant to state statute, the Board may establish an incentive plan or plans to encourage Tennessee residents to participate in TNStars. Such plans may include, but are not limited to, matching contributions using state funds and shall be restricted to Tennessee residents only. In addition, for fiscal years ended June 30, 2015 and June 30, 2014 the Board authorized the program to subsidize, using state appropriations, the program management fee and the estimated underlying mutual fund expense so that the total annual asset-based fee, after subsidy, for any account does not exceed 35 basis points. The resulting transfers from the General Fund to cover the incentives and subsidy from state appropriations amounted to $400,326 for the year ended June 30, 2015 and $353,566 for the year ended June 30, 2014.

D. OTHER ACCOUNTING DISCLOSURES

Cash Transfer – At June 30, 2015 the ESP had a surplus in cash of $11,188. On June 30, 2015, TNStars sent, via EFT, $104,111 to the investment custodian. Also on this day, TNStars issued debit EFT transactions to plan participant's financial institutions for $104,111. The debit EFT transactions would settle with the State on July 1, 2015 or the next business day. 2015. In addition, $74,100 was transferred from the General Fund to TNStars to be used to fund the Tennessee Investments Preparing Scholars (TIPS) program. The TIPS funding was invested in July 2015. On June 30, 2014, TNStars sent, via EFT, $32,097 to the investment custodian. Also on this day, TNStars issued debit EFT transactions to plan participant's financial institutions for $32,097. The debit EFT transactions would settle with the State on July 1, 2014 or the next business day. To eliminate the deficit cash position, the State General Fund transferred $32,097 to TNStars on June 30, 2014. The resulting settlement of the debit transactions on July 1, 2014 transferred the funds back to the General Fund.

Fund Mergers and Additions – On September 30, 2014, Vanguard Total Bond Market Index - Signal Shares (VBTSX) and Vanguard 500 Index - Signal Shares (VIFSX) were deleted from the 529 plan. The assets in these funds were converted to Vanguard Total Bond Market Index - Admiral Shares (VBTLX) and Vanguard 500 Index - Admiral Shares (VFIAX), respectively. On June 30, 2015, all assets held in DFA Enhanced US Large Company (DFELX) and Great West American Century (MXGRX) were transferred to the DFA US Large Cap Value Fund (DFLVX). Also on that date, the DFA US Small Cap Fund (DFSTX) was added to the TNStars portfolio. This was due to underperformance of MXGRX and DFELX when benchmarked against other similar mutual funds in the same classification.
